

Case Submission Form for Complex Case Studies

Wednesday, October 25 – 3:30-4:30 pm

Overview: Family physicians manage care for a wide variety of patients, including many possible complex conditions and patients with multiple chronic co-morbidities. Usual evidence-based recommendations and education surrounding management of these patients may be difficult to apply due to inherent disease management difficulties.

Learning Objective: Discuss the optimal diagnostic evaluation, treatment, and disposition of adult patients who present with various complicated complaints.

- Due to time constraints, all cases may not be able to be presented.
- Participants may be asked to help present the case.

Complete this form to submit a case work up:

Your name: _____

Email: _____ Phone: _____

Title of your case: _____

Brief description of a case including, history, systems, evidence-based information, etc.

Pertinent patient characteristics, events, rationale for treatment, and associated outcomes should be described. These real-life features should be brief and clear. Descriptions of how the patient looked or acted and perhaps what he or she said or did, (i.e., a storytelling style, the contextual descriptions of the situation, the portrayals of the central characters, the development of a series of events, and an interesting plot evoking different perspectives).

DUE DATE: Case Submissions due NO LATER THAN Wednesday, October 25 – 11:30 am

To submit your case:

1. Email case information to Nina Carnoali at ncarnoali@aafp.org
OR
2. Drop off this form at the AAFP Registration Desk on-site in Phoenix.
