AMERICAN ACADEMY OF
FAMILY PHYSICIANS

Family medicine is the foundation of the U.S. health care system. It affects every part of every person—an attribute no other specialty can claim.

Get involved in your Family Medicine Interest Group (FMIG) to:

- Learn what family physicians do and how they practice
- Develop your skills in a wide variety of clinical procedures and practices
- Network with peers and faculty
- Connect and serve your community
- Develop professionally and personally
- Get the scoop on conferences and meetings for students
- Consider leadership opportunities to build your CV
- Find out if you have what it takes to choose family medicine
