

KANSAS FACT SHEET

AAFP on Health Reform

The AAFP believes that policies should be adopted to ensure continued progress towards health care for all supported by a payment system that rewards value of care over volume of service. The health system should promote prevention and wellness, protect patients from financial barriers to needed services and build a primary care physician workforce that can meet the growing demand for care.

Kansas Family Medicine

- There are 1,289 family physicians in Kansas.
- Kansas has 4 family medicine residency programs.
- Kansas has 108 medically underserved areas/populations.
- 13.4% of the residents in Kansas live in a health professional shortage area.

Medicaid in Kansas

- In 2015, 13% of people in Kansas were covered by Medicaid/CHIP.
- Medicaid/CHIP enrollment increased by 38,200 between 2013 and 2016.
- Kansas's uninsured rate remained consistent at 10%.
- In Kansas, 41% of Medicaid spending is for Medicare beneficiaries.¹

Impact of the Better Care Reconciliation Act (HR 1628 being considered by the US Senate)

- 198,200 people in the state of Kansas would lose their health coverage by 2026.²
- In Kansas, 504,000 non-elderly adults have a declinable preexisting condition.³
- In Kansas, premiums would rise. For example, if a 40-year-old in Topeka, earning \$30,000 a year, purchased a silver plan they would pay a \$60 increase in premium. A 60-year-old would pay a \$2,240 increase in premium.⁴
- The BCRA would limit access to substance abuse treatment by cutting Medicaid. In Kansas, 329 people died of overdose deaths in 2015.⁵
