

## MISSISSIPPI FACT SHEET

### AAFP on Health Reform

The AAFP believes that policies should be adopted to ensure continued progress towards health care for all supported by a payment system that rewards value over volume of service. The health system should promote prevention and wellness, protect patients from financial barriers to needed services and build a primary care physician workforce that can meet the growing demand for care.

### Mississippi Family Medicine

- There are 696 family physicians in Mississippi.
- Mississippi has 3 family medicine residency programs.
- Mississippi has 91 medically underserved areas/populations.
- 14.4% of the residents in Mississippi live in a health professional shortage area.

### Medicaid in Mississippi

- In 2015, 23% of people in Mississippi were covered by Medicaid/CHIP.
- Medicaid/CHIP enrollment increased by 40,400 between 2013 and 2016.
- Mississippi's uninsured rate decreased from 14% in 2013 to 13% in 2015.
- In Mississippi, 37% of Medicaid spending is for Medicare beneficiaries.<sup>1</sup>

### Impact of the American Health Care Act

- 282,700 people in the state of Mississippi would lose their health coverage.<sup>2</sup>
- In Mississippi, 595,000 non-elderly adults have a declinable preexisting condition.<sup>3</sup>
- In Mississippi, there would be a \$1,092 increase in the annual premium in 2018.<sup>4</sup>
- Total consumer cost-sharing in Mississippi:
  - Low income individuals (<250% FPL) would have their net health insurance costs increase by \$4,165 in Mississippi by 2020. For older individuals, ages 55-64, the net cost increase would be \$7,323.<sup>5</sup>
- The AHCA would raise employment and economic activity at first (in 2018, 7,600 jobs would be gained) but by 2026, 6,200 jobs – mostly in health – would be lost.<sup>6</sup>
- The AHCA would limit access to substance abuse treatment by cutting Medicaid. In Mississippi, 351 people died of overdose deaths in 2015.<sup>7</sup>
