

RHODE ISLAND FACT SHEET

AAFP on Health Reform

The AAFP believes that policies should be adopted to ensure continued progress towards health care for all supported by a payment system that rewards value over volume of service. The health system should promote prevention and wellness, protect patients from financial barriers to needed services and build a primary care physician workforce that can meet the growing demand for care.

Rhode Island Family Medicine

- There are 263 family physicians in Rhode Island.
- Rhode Island has 2 family medicine residency program.
- Rhode Island has 12 medically underserved areas/populations.
- 2.6% of the residents in Rhode Island live in a health professional shortage area.

Medicaid in Rhode Island

- In 2015, 17% of people in Rhode Island were covered by Medicaid/CHIP.
- Medicaid/CHIP enrollment increased by 100,000 between 2013 and 2016.
- Rhode Island's uninsured rate decreased from 9% in 2013 to 5% in 2015.
- In Rhode Island, 38% of Medicaid spending is for Medicare beneficiaries.¹
- If Rhode Island were to maintain Medicaid expansion with decreased federal support, it would increase state costs by \$28.4 million in 2021, and \$272.8 million in 2024.²

Impact of the Better Care Reconciliation Act (HR 1628 being considered by the US Senate)

- 45,800 people in the state of Rhode Island would lose their health coverage by 2026.³
- In Rhode Island, 164,000 non-elderly adults have a declinable preexisting condition.⁴
- In Rhode Island, premiums would rise. For example, if a 40-year-old in Providence, earning \$30,000 a year, purchased a silver plan they would pay a \$270 increase in premium. A 60-year-old would pay a \$2,830 increase in premium.⁵
- The BCRA would limit access to substance abuse treatment by cutting Medicaid. In Rhode Island, 310 people died of overdose deaths in 2015.⁶
