ACTIVITY DISCLAIMER

The material presented here is being made available by the American Academy of Family Physicians for educational purposes only. This material is not intended to represent the only, nor necessarily best, methods or procedures appropriate for the medical situations discussed. Rather, it is intended to present an approach, view, statement, or opinion of the faculty, which may be helpful to others who face similar situations.

The AAFP disclaims any and all liability for injury or other damages resulting to any individual using this material and for all claims that might arise out of the use of the techniques demonstrated therein by such individuals, whether these claims shall be asserted by a physician or any other person. Every effort has been made to ensure the accuracy of the data presented here. Physicians may care to check specific details such as drug doses and contraindications, etc., in standard sources prior to clinical application. This material might contain recommendations/guidelines developed by other organizations. Please note that although these guidelines might be included, this does not necessarily imply the endorsement by the AAFP.

DISCLOSURE

It is the policy of the AAFP that all individuals in a position to control content disclose any relationships with commercial interests upon nomination/invitation of participation. Disclosure documents are reviewed for potential conflict of interest (COI), and if identified, conflicts are resolved prior to confirmation of participation. Only those participants who had no conflict of interest or who agreed to an identified resolution process prior to their participation were involved in this CME activity.

All individuals in a position to control content for this activity have indicated they have no relevant financial relationships to disclose.

The content of my material/presentation in this CME activity will include discussion of unapproved or investigational uses of products or devices as indicated: Metformin: It's use for prevention of progression of prediabetes to overt diabetes will be discussed.

Peter Ziemkowski, MD, FAAFP

Associate Professor, Department of Family and Community Medicine, Western Michigan University, Homer Stryker MD School of Medicine, Kalamazoo; Clinical Associate Professor, Department of Family Medicine, College of Osteopathic Medicine, Michigan State University, East Lansing.

Dr. Ziemkowski is a graduate of the University of Illinois College of Medicine at Chicago. He completed his residency in family medicine at Michigan State University, Kalamazoo Center for Medical Studies, Kalamazoo, MI, and an internship in emergency medicine at the University of Michigan, Ann Arbor, and St. Joseph Hospital. Dr. Ziemkowski practices family medicine in southwest Michigan, where he is on the faculty of the Western Michigan University Homer Stryker MD School of Medicine's Family Medicine Residency Program and serves as associate dean for Student Affairs. He has been teaching for 19 years and maintains a blog for residents at kzoofm.blogspot.com, and uses technology to help educate patients on healthy lifestyles. Dr. Ziemkowski's clinical interests include the care of metabolic conditions associated with cardiovascular risk, such as hypertension, hyperlipidemia, diabetes mellitus, and obesity. He believes that primary prevention of these diseases and their complications will deliver the greatest benefit to the greatest number of patients.
