

Hyperlipidemia: Ask the Expert

Charles Carter, MD, FAAFP

ACTIVITY DISCLAIMER

The material presented here is being made available by the American Academy of Family Physicians for educational purposes only. This material is not intended to represent the only, nor necessarily best, methods or procedures appropriate for the medical situations discussed. Rather, it is intended to present an approach, view, statement, or opinion of the faculty, which may be helpful to others who face similar situations.

The AAFP disclaims any and all liability for injury or other damages resulting to any individual using this material and for all claims that might arise out of the use of the techniques demonstrated therein by such individuals, whether these claims shall be asserted by a physician or any other person. Every effort has been made to ensure the accuracy of the data presented here. Physicians may care to check specific details such as drug doses and contraindications, etc., in standard sources prior to clinical application. This material might contain recommendations/guidelines developed by other organizations. Please note that although these guidelines might be included, this does not necessarily imply the endorsement by the AAFP.

DISCLOSURE

It is the policy of the AAFP that all individuals in a position to control content disclose any relationships with commercial interests upon nomination/invitation of participation. Disclosure documents are reviewed for potential conflict of interest (COI) and, if identified, conflicts are resolved prior to confirmation of participation. Only those participants who had no conflict of interest or who agreed to an identified resolution process prior to their participation were involved in this CME activity.

All individuals in a position to control content for this activity have indicated they have no relevant financial relationships to disclose.

The content of my material/presentation in this CME activity will not include discussion of unapproved or investigational uses of products or devices.

Charles Carter, MD, FAAFP

Residency Program Director, Palmetto Health/University of South Carolina Family Medicine Residency Program, Associate Professor, Department of Family and Preventive Medicine, University of South Carolina School of Medicine, Columbia.

Dr. Carter is a graduate of the University of South Carolina School of Medicine. He completed his residency at Palmetto Health Richland in Columbia and his fellowship at Georgetown University School of Medicine in Washington, DC. He practices in a residency-teaching program and cares for mostly underserved patients. He has interests in diabetes, cardiovascular health, and headache disorders. He believes the most important trend in cardiovascular disease right now is population-based primary prevention. This is relevant to family medicine as physicians confront the challenge of remaining the core facet of their patients' health care. Dr. Carter also believes that preventive cardiology is a key part of family medicine practice.

Learning Objectives

1. Discuss solutions for overcoming barriers to providing optimal management of hyperlipidemia in practice.

Audience Engagement System

The screenshot illustrates the Audience Engagement System app interface across three steps:

- Step 1:** Home screen with a dashboard, navigation icons, and a search bar.
- Step 2:** CME Library screen showing a list of activities with details like title, duration, and status.
- Step 3:** CME Activity content screen for 'CME001 Acute Coronary Syndrome: Unchain My Heart', featuring a video player and associated text.
