Laboratory Quality Improvement Tools from AAFP-PT

Product deterioration, environmental conditions, and even personnel expertise can affect important tests. Guarantee valid results with easy-to-perform two-level urine dipstick and multi-level whole blood hemoglobin quality control products manufactured by NERL Diagnostics.

The **Sentry® Urine Dipstick Controls** ensure urinalysis results you can count on every time.

- Ready-to-use liquid formulation requires no reconstitution
- Store at **room temperature** (bench ready up to six months)
- Purchase in bulk (18-month stability at 2-8° C)
- Created for Multistix®, Chemstrips®, Diascreen®, and other urinalysis strips
- Use with automated strip readers
- Packaged in two levels (2 x 25 ml of each level per kit)

Hema-Trol® Whole Blood Hemoglobin Controls provide confidence that results are accurate and dependable.

- Designed for use with HemoCue® B and HemoCue 201 Plus® hemoglobin photometers
- Multi-level reference (low, normal, high)
- 2-year expiration date
- 60 day stability after opening
- Convenient packaging in either 6 x 3 ml sets or 3 x 3 ml sets
