

2026 DPC SUMMIT AGENDA • JULY 16-19

DPC-424

Thursday, July 16

7 a.m.

Registration

8–10 a.m.

Skills Workshop: Podiatry

This two-hour, hands-on skills workshop equips participants with evidence-based, best-practice techniques for evaluating and managing common foot and ankle concerns in the clinical setting. Through demonstration and guided practice, learners will build practical proficiency and confidence performing core procedures, with attention to indications, safety, patient comfort and post-procedure care. Participants will leave with increased comfort in: callus paring and nail plate biopsy; toenail removal; ingrown toenail evaluation and management; and digital nerve block.

8 a.m.–Noon

Dermatology, Minor Surgical Procedures and Wound Care

This hands-on workshop will explore best in class diagnostic and treatment techniques for a variety of dermatologic conditions and wounds. Participants will sharpen their dermatological diagnostic skills through dermoscopy practice and elevate your proficiency in subsequent skills such as excision and cryotherapy. Then delve into a dynamic demonstration and hands-on practice covering essential aspects such as wound debridement, biopsies and mastery of dressing and compression techniques.

8 a.m.–Noon

POCUS

The advances in ultrasound resolution, technology and cost have put this modality well within the scope and ability of every practicing physician. This hands-on, skill-based POCUS workshop equips clinicians to acquire and interpret high-quality ultrasound images. At the end of this workshop, the participant should have basic knowledge of the physics and knobology of POCUS as well as competence in the techniques for diagnosis and procedural guidance and be familiar with technical steps to use ultrasound technology for the benefit of family medicine patients.

10:30 a.m.–12:30 p.m.

Skills Workshop: ENT

This two-hour, skills-focused workshop equips DPC clinicians with practical, office-ready ENT procedures that improve access, efficiency and patient satisfaction. Participants will practice core techniques and workflow tips for foreign body removal (ear and nasal), ear lavage and cerumen management and additional common in-clinic ENT skills. Emphasis is placed on patient selection, safety/red flags, comfort measures, documentation/coding considerations and troubleshooting to support confident, same-day care in the DPC setting.

Noon–1:30 p.m.

Lunch (no meal provided, on your own)

1:30–3:30 p.m.

Skills Workshop: ENT

This hands-on workshop will explore best in class diagnostic and treatment techniques for a variety of dermatologic conditions and wounds. Participants will sharpen their dermatological diagnostic skills through dermoscopy practice and elevate your proficiency in subsequent skills such as excision and cryotherapy. Then delve into a dynamic demonstration and hands-on practice covering essential aspects such as wound debridement, biopsies and mastery of dressing and compression techniques.

1:30–5:30 p.m.

IUD/Nexplanon*

This practical workshop covers core skills for IUD and Nexplanon contraception. Participants will review patient counseling and selection, step-by-step insertion techniques, comfort measures and post-procedure follow-up. For IUDs, the training includes standard placement and routine removal when strings are easily identified. For Nexplanon, the session focuses on best practices for implant insertion, verifying placement and routine removal, along with troubleshooting common issues such as bleeding changes and patient questions.

** This workshop is not eligible for CME Credit.*

1:30–5:30 p.m.

OMT

This workshop is designed for MDs and DOs who want to integrate a non-pharmacologic, hands-on approach to patient care. Participants will leave with a fundamental understanding of osteopathic principles and the ability to perform selected OMT techniques safely and effectively, enhancing their capacity to offer holistic, patient-centered care in their direct primary care practices.

4–6 p.m.

Skills Workshop: Podiatry

This two-hour, hands-on skills workshop equips participants with evidence-based, best-practice techniques for evaluating and managing common foot and ankle concerns in the clinical setting. Through demonstration and guided practice, learners will build practical proficiency and confidence performing core procedures, with attention to indications, safety, patient comfort and post-procedure care.

Participants will leave with increased comfort in: callus paring and nail plate biopsy; toenail removal; ingrown toenail evaluation and management; and digital nerve block.

5:30–7 p.m.

Expo Hall Launch

Friday, July 17

7 a.m. – Registration / Breakfast

8:15–9:25 a.m. – Main Stage – Why DPC Chose Me

9:35–10:30 a.m. – Breakout Sessions

10:30–11 a.m. – AM Break / Exhibits Open

11–11:55 a.m. – Breakout Sessions

Noon–1 p.m. – Lunch and Regional Networking Groups

1–1:30 p.m. – Exhibits Open

1:30–3:30 p.m. – Breakout Sessions

3:30–4 p.m. – PM Break / Exhibits Open

4–4:55 p.m. – Main Stage – Setting Healthy Boundaries in DPC

5–6:30 p.m. – DPC Summit Happy Hour with Exhibitors

Saturday, July 18

7:30 a.m. – Registration / Breakfast

8:15–9:25 a.m. – Main Stage – Physician Autonomy:
Practicing to the Top of Your Training

9:35–10:30 a.m. – Breakout Sessions

10:30–11 a.m. – AM Break / Exhibits Open

11–11:55 a.m. – Breakout Sessions

Noon–1 p.m. – Lunch and Mentorship Meet-Up

1–1:30 p.m. – Exhibits Open (*final opportunity*)

1:30–3:30 p.m. – Breakout Sessions

3:30–4 p.m. – PM Break

4–4:55 p.m. – Main Stage – Beyond the Inbox: Building Scalable
Joyful DPC Through Intelligent Workflows

Sunday, July 19

8 a.m. – Registration and Coffee Hour

8:30–10 a.m. – Speaker Town Halls

10:10–11:05 a.m. – Breakout Sessions

11:15 a.m.–12:15 p.m. – Main Stage – It's Not Just the Doc!
What About the Rest of Us?
