Dear Representatives Ruiz, Bucshon, Bera and Miller-Meeks:

On behalf of the undersigned physician and non-physician organizations, representing more than one million clinicians and the patients they serve, thank you for introducing H.R. 2474, the Strengthening Medicare for Patients and Providers Act. The legislation applies a permanent inflation-based update to the Medicare Physician Fee Schedule (MPFS) conversion factor, which will provide much-needed stability to the Medicare payment system as our members contend with an increasingly challenging environment providing Medicare beneficiaries with access to timely and quality care.

Congress has taken action to mitigate some of the recent MPFS cuts on a temporary basis, however, reimbursement continues to decline. According to an American Medical Association analysis of Medicare Trustees data, when adjusted for inflation, Medicare payments to clinicians have declined by 26% from 2001-2023¹. The failure of the MPFS to keep pace with the true cost of providing care, combined with year-over-year cuts resulting from the application of budget neutrality, sequestration, and a paucity of available alternative payment model/value-based care models, clearly demonstrates the Medicare payment system is broken. The addition of an inflationary update will provide budgetary stability as clinicians-many of whom are small business owners-contend with a wide range of shifting economic factors, such as increasing administrative burdens, staff salaries, office rent and purchasing of essential technology.

Congress has a unique opportunity to adopt comprehensive, transformative reforms to the Medicare payment system and we applaud your leadership in introducing this legislation. We look forward to working with Congress to ensure passage of H.R. 2474 and continue conversations around further payment reform to ensure America's seniors continue to receive access to the high-quality care they deserve.
