## State-of-the-art education with you and your patients in mind— **AAFP CME**

Developed specifically for family physicians, the AAFP prides itself on providing relevant, high-quality, evidence-based education in formats that work best for your individual learning style. Key learnings are easily applicable—improving both your patient care and patient outcomes.

**Live**

**Self-Study**

**Family  
Medicine**

**Certification**

## Expert faculty and beautiful locations— **AAFP *Live* CME**

Offered in a variety of great locations throughout the year, AAFP Live CME features up-to-date, evidence-based courses developed specifically for the family physician. Attend optional clinical procedural workshops to hone learning and gain hands-on experience. Earn CME, network with colleagues, and gain practical know-how you can apply directly to your practice—all in just a few days.

**BROWSE COURSES**

**ALSO® Instructor** (August 16)  
**or Provider Course** (August 15 or 17)  
 Kansas City, MO (Leawood, KS)

Advanced Life Support in Obstetrics (ALSO®) is an evidence-based, multidisciplinary training program that equips the entire maternity care team with skills to effectively manage obstetric emergencies. This comprehensive course encourages a standardized team-based approach amongst physicians, residents, nurses, midwives, registered nurses, and other members of the maternity care team to improve patient safety and positively impact maternal outcomes. Provide you and your team with the skills needed to address the three leading causes of maternal death in the U.S.: postpartum hemorrhage, severe pre-eclampsia, and deep vein thrombosis.

Successful completion of the Instructor course, as well as evaluation and recommendation by an ALSO Advisory Faculty member, is required to become an ALSO Approved Instructor.

**REGISTER NOW!**

**AAFP Prescribed credits available. Prices vary by location.**

**Instructor: Starting at \$395**

**Provider: Starting at \$345**

## PerformanceNavigator® Workshop

Cardiometabolic Conditions: Diabetes, Hypertension, and Dyslipidemia

September 19-21 | Dallas, TX

### ***Your Guide to Family Medicine Certification***

Transform your practice in a collaborative environment. Learn from expert faculty how to improve care among your patient panel with cardiometabolic conditions: diabetes, hypertension, and dyslipidemia.

- Benefit from talking through solutions and challenges with fellow family physicians.
- Participate in peer-to-peer learning, practice reflection, and addressing practice barriers.
- Create an action plan to guide practice performance interventions.

**REGISTER  
NOW!**

Earn up to 107.75 AAFP Prescribed credits when you complete the live workshop and corresponding activities  
**Members: \$1,795\*\*/Nonmembers: \$1,995**  
**Save \$200 when you register early.**

\*\*Discounts available for AAFP member physicians in their first seven years of practice

## PerformanceNavigator® On Demand

Choose from one of three online courses: Diabetes, Hypertension, or Dyslipidemia

Develop practice solutions through individualized interventions, while maximizing your time and money—all from your home or practice.

With PerformanceNavigator On Demand, you can:

- Improve care among your patient panel with cardiometabolic conditions.
- Apply the latest patient care performance-improvement interventions.
- Satisfy your Family Medicine Certification's Performance Improvement Activity.

### Social Learning Community and You

Interact with fellow family physicians through the Social Learning Community. Ask questions and gain insights into successful interventions and performance improvements. Discuss how faculty and your peers have improved patient outcomes through specific practice improvements across cardiometabolic conditions.

## METRIC® Performance Improvement

Achieve quality improvement in your practice with METRIC. In three online stages, you can enhance patient outcomes, help fulfill your Family Medicine Certification requirements, and earn CME. METRIC's innovative online tool guides you through three stages to:

1. Assess your current practice and baseline.
2. Select and apply patient care performance improvement interventions.
3. Reassess your practice and evaluate your efforts.

Select a METRIC module for your practice on asthma and hypertension, and take advantage of METRIC's group registration and custom tracking and reporting tools. METRIC helps you generate insights to apply to your practice for improved patient care and processes.

**BUY  
NOW!**

**20 AAFP Prescribed credits**

**AAFP members: free/Nonmembers: \$125**

**ACCESS  
PRIMARY+**

Report, track, and plan your CME easily and efficiently with Primary+®.  
It's simple, convenient, and exclusively available to AAFP members.

- Use a customizable CME learning plan to help bridge your knowledge gaps and meet your requirements.
- Keep all your CME current in one convenient place, (AAFP, state, ABFM certification, and more).
- Make updates anytime.
- Plan your CME by topic, location, or date.

## ***Why AAFP CME?***

The AAFP's sole purpose is to support you, the family physician, and your practice. The CME produced is no different. Developed specifically for the family physician's needs, AAFP CME offers relevant, high-quality, evidence-based education you can trust.

As your member organization, the AAFP understands the pivotal role you play in your patients' health care and in their lives. AAFP CME, created with you in mind, allows you to easily apply learnings directly into your practice—improving both patient care and patient outcomes.

## ***AAFP CME is CME with Distinction***

The Accreditation Council for Continuing Medical Education has awarded the AAFP the distinction of accreditation with commendation as a provider of CME for physicians. This places the AAFP in the top 21% of all CME providers.
