Leawood, KS 66211-2672

Dear Alex,

Thank you very much to you and the entire AAFP Center for Global Health Initiatives for the opportunity to attend the 13th annual AAFP Family Medicine Global Health Workshop in Atlanta, GA in September 2016. I recognize it was through your generous sponsorship that I was able to attend this wonderful event.

The whole experience for me was eye opening. Every aspect of the conference that I was able to attend made me appreciate my role as an aspiring family physician in Kenya and globally. The opportunity to meet colleagues from the USA and from around the world provided me with new ideas about how we can expand and improve family medicine in Kenya. The preconference point of care ultrasound training was particularly valuable,

and I have already led several sessions for my Kenyan colleagues at our community hospital so that we can improve our diagnostic capabilities on the wards.

Finally, I really appreciated the chance I got to spend time with our partners from the USA, specifically Dr. Daria Szkwarko, Dr. Fadya El Rayess, Dr. Olga Valdman, and Dr. Katya Jarrell. We presented together on several presentations regarding our Family Medicine collaboration through the Academic Model Providing Access to Healthcare in Eldoret, Kenya. This was a fantastic experience since it was my first time presenting at an international conference.

I truly feel that I am a better physician for having attended the AAFP Global Health Workshop.

I have included some photos from my experience. Please feel free to share them with your colleagues.

Yours Faithfully,

Dr. Kamau Boro
Chief Family Medicine Registrar
Moi University Department of Family Medicine
