ACGME Update

Stacy Potts, M.D., M.Ed., Chair, Review Committee for Family Medicine
Eileen Anthony, RC Executive Director
Baretta R. Casey, MD, MPH, FAAFP, Regional Vice President, CLER Program
Mary Lieh-Lai, MD, FAAP, FCCP, Senior Vice President, Medical Section

© 2018 ACGME

Disclosures

- Recovering:
 - Pediatric Intensivist
- Fully Recovered:
 - Program Director
- No conflicts to report

© 2018 ACGME

Outline

- CPR Sections I-V: Major Changes
- The ACGME Wellness Initiative

© 2018 ACGME

CPR Sections I-V: Major Changes

- Almost all CPRs categorized as “core”
- New preamble
- Philosophy, Background, Intent added throughout
- RC may/must further specify where indicated
- New Fellowship CPRs
 - *Current* One-year CPRs will be discontinued

© 2018 ACGME

Section I

- Elimination of required elements for PLAs
 - recommended elements to be included in the PD Guide
- PLAs must be approved by the DIO
- Mission-driven, ongoing systematic recruitment and retention of diverse workforce
- Addition of PRs that mirror the IRs: access to food, sleep and rest facilities; security and safety measures; new PR addressing lactation facilities
- New PR for Fellowships: Fellows should contribute to the education of residents in core programs, if present

© 2018 ACGME

Section II: Program Director

- Minimum 20% FTE (8h/per week) salary support for administration of the program (*RC may specify*) - (*resident version only*)
- For fellowships: PD must be provided with support adequate for program administration based on program size and configuration (*RC must specify*)
- PD qualifications:
 - must include at least 3 years of educational and/or administrative experience, or qualifications acceptable to RC (not included in the fellowship CPRs)
 - AOA certification acceptable
 - must include ongoing clinical activity (not included in the fellowship CPRs)

© 2018 ACGME

Section II: Program Director

- Program Director responsibilities:
 - Role model of professionalism
 - Design and conduct program consistent with community needs and mission(s) of the program and SI
 - Develop and oversee process for evaluation of candidates for program faculty prior to appointment and annually thereafter
 - Have authority to appoint and remove faculty at all sites
 - NOTE: this does not mean firing someone – but “removing” them from educational/teaching activities
 - Have authority to remove residents from supervising interactions that do not meet program standards

© 2018 ACGME

Section II: Faculty

- Faculty responsibilities:
 - Demonstrate commitment to safe, quality, cost-effective, patient-centered care
 - Pursue faculty development at least annually
- Faculty Qualifications:
 - AOA certification acceptable
 - Any non-physician faculty member must be designated by the program director

© 2018 ACGME

Section II: Faculty

- Core faculty
 - Definition now based on role in resident education and supervision – not number of hours devoted
 - Includes, at a minimum, CCC and PEC members
 - Must complete annual ACGME Faculty Survey
 - Non-physician faculty members may be appointed as core faculty
 - Scholarly activity now assessed for the program as a whole, not individual core faculty (allows core faculty selection based on educational contributions)

© 2018 ACGME

Section II: Program Coordinator

- There must be a program coordinator
- Support for the coordinator must be at least 50% FTE (at least 20 hours per week) for administrative time (*RC may further specify*)
- Fellowship CPRs do not specify minimum level of support for the coordinator – (*RCs may specify*)

© 2018 ACGME

Section III: Eligibility

- Eligibility criteria from Institutional Requirements now mirrored in CPRs
- ACGME-I Advanced Specialty accreditation acceptable for prerequisite clinical education
- Fellowship CPRs provide 2 options - RC to decide on prerequisite education accredited by:
 - Option 1: ACGME or AOA only
 - Option 2: ACGME, AOA, RCPSC, CFPC or ACGME-I Advanced Specialty accreditation

© 2018 ACGME

Section IV: Competencies

- Competency requirements re-categorized from “outcome” to “core”
- Fellowship version: subcompetencies for Professionalism, PBLI, Interpersonal and Communication Skills, and Systems-based Practice have been deleted
- Residents must learn to advocate for patients within the health care system to achieve the patient's and family's care goals, including, when appropriate, end-of-life goals.

© 2018 ACGME

Section IV: Scholarship

- New scholarship section replaces previous faculty and resident scholarly activity sections
- New requirements focus on scholarly activity for the program as a whole
- Scholarly activity must be consistent with the mission of the program

Scholarly Activity

- Residents must participate in scholarship. Each graduating resident should have a scholarly activity that is disseminated as further described in IV.D.2.b).(1) or IV.D.2.b).(2).^(Core)

Mary's Thoughts on Scholarly Activity

The Purpose of Requiring Scholarship: The intention was not to turn you into bean counters

© 2018 ACGME

Do not lose sight of the forest for the trees

© 2018 ACGME

Unspoken Rationale

- Having an environment of scholarship:
 - Leads to the creation of new knowledge
 - Encourages life-long learning
 - Scholarship creates a mindset of inquiry
 - Might reduce “jumping on any bandwagon that comes along”
 - Mindful practice: for example – antibiotic stewardship, infection control and careful consideration of new (and expensive) drugs before use

\$30.00/case of 24
+ shipping
Really?????

© 2018 ACGME

Rationale

- Scholarly activity is used by RCs as a *proxy* to:
 - demonstrate that faculty have the skills to analyze and utilize new knowledge
 - demonstrate that the program has the ability to teach those skills to residents
 - demonstrate that an environment of scholarship exists

© 2018 ACGME

Boyer's Models of Scholarship

- Discovery
- Application
- Integration
- Teaching

“Education must prepare students to be independent, self-reliant human beings. But education, at its best, also must help students go beyond their private interests, gain a more integrative view of knowledge, and relate their learning to the realities of life.”

Ernest Boyer

© 2018 ACGME

Scholarly Activity

- Creation of curricula, evaluation tools, didactic educational activities, or electronic educational materials
- Contribution to professional committees, educational organizations, or editorial boards
- Innovations in education

© 2018 ACGME

Section IV: Independent Practice

New PR for Fellowship version only:

- *Fellowship programs may assign fellows to engage in the independent practice of their core specialty during their fellowship.*
- If programs permit their fellows to utilize the independent practice option, it must not exceed 20 percent of their time per week or 10 weeks of an academic year. (Core)
- [The Review Committee may further specify. This section will be deleted for those Review Committees that choose not to further specify.]

© 2018 ACGME

Section V: Resident Evaluation

- PD or designee, with input from CCC, must:
 - Meet with and review with each resident documented semi-annual evaluation, including Milestones progress
 - Assist residents in developing individualized learning plans
 - Develop plans for residents failing to progress
- Provide summative evaluation of resident's readiness to progress to the next year of the program

© 2018 ACGME

Section V: Program Evaluation

- Addition of list of required elements to be addressed in the Annual Program Evaluation
- PEC must evaluate the program's mission and aims, strengths, areas for improvement, and threats
- Annual review, including action plan, must be
 - Distributed to and discussed with faculty and residents
 - Reviewed by the GMEC
- Program must complete a Self-Study prior to 10-year accreditation site visit

© 2018 ACGME

Section V: Board Certification

- PD should encourage graduates to take applicable ABMS or AOA certification examination –*replaces all existing specialty specific take rate requirements*
- Pass rate (address both written and oral exams):
- Aggregate pass rate of program graduates taking the examination for the first time must be above the fifth percentile
- Based on three years of data for specialty using an annual exam and six years of data for specialties using a biennial exam

© 2018 ACGME

The ACGME Wellness Initiative

- http://www.acgme.org/Portals/0/PDFs/13287_AFSP_After_Suicide_Clinician_Toolkit_Final_2.pdf
- Common Program Requirements VI.C. Well-being
- Components of the plan:
 - Ensuring the emergency contact list is updated yearly
 - Confirming the death of a resident and how to do so
 - Developing a Crisis Response Team
 - Communicating with emergency contact/family
 - Notifying residents and faculty
 - Creating face-to-face, phone and written notifications
 - Planning a memorial service
 - Supporting well-being of all
- Distribute the plan and maintain awareness

The CLER National Report of Findings 2016

www.jgme.org

© 2018 ACGME

Overarching Themes

1. Clinical Learning Environments (CLEs) vary in approaches to patient safety and health care quality and the degree of engagement of residents and fellows in addressing those areas.
2. CLEs vary in the approach of implementing GME within the organization.
3. CLEs vary in the investment of teaching and engaging faculty and program directors on system-based initiatives
4. CLEs vary in the degree of coordination of educational resources across professions.

What's New in Protocol 3.0?

- Senior Leadership Interview
- Well-being Focus Area
 - Well-being Representative Interview
 - Inclusion of the Clinical Care Team
- Shorter Faculty Group Interview

© 2018 ACGME

CLER Site Visits

Protocol 3.0

- Field testing June-Aug, launched Sept 2017 for larger sponsoring institutions
- Changes based on inputs and evolution of focus area
- 2018 will begin synchronizing cycle lengths to 18-24 months for all SIs

© 2018 ACGME

CLER Six Focus Areas

© 2018 ACGME

Pathways Version 1.1

- Well Being
- (selected topics)
 - Fatigue
 - Burnout
 - Work/life balance
 - At risk for self harm

Webinar and
release May
2017

© 2018 ACGME

Senior Leadership Interview

- Fewer questions; more discussion-focused
- GME integration into institutional strategy and planning
- Review of overall challenges, progress, and opportunities
- Discussion of use of educational resources for interprofessional learning

© 2018 ACGME

Well Being Focus Area

- CLE perspective
 - Emphasis on systematic and institutional strategies and processes to cultivate and sustain well being of patients and clinical care team

© 2018 ACGME

Well-being: 6 major pathways

WB Pathway 1: Clinical learning environment promotes well-being across the clinical care team to ensure safe and high quality patient care

WB Pathway 2: Clinical learning environment demonstrates specific efforts to promote the well-being of residents, fellows, and faculty members

Well-being: 6 major pathways

WB Pathway 3: Clinical learning environment promotes an environment where residents, fellows, and faculty members can maintain their personal well-being while fulfilling their professional obligations

WB Pathway 4: Clinical learning environment demonstrates system-based actions for preventing, eliminating, or mitigating impediments to the well-being of residents, fellows, and faculty members

Well-being: 6 major pathways

WB Pathway 5: Clinical learning environment demonstrates mechanisms for identification, early intervention, and ongoing support of residents, fellows, and faculty members who are at risk of or demonstrating self-harm

WB Pathway 6: Clinical learning environment monitors its effectiveness at achieving the well-being of the clinical care team

© 2018 ACGME

Well Being Focus Area

- Protocol 3.0
 - Assessed in group discussions and on walking rounds
 - Group discussions to include new meeting with “well being” leadership at the CLE

© 2018 ACGME

Well-being Focus Area

- Selected Topics
 - Fatigue
 - Burnout
 - Work/life balance
 - At risk of or demonstrating self-harm

© 2018 ACGME

Well-being

- Group interviews inclusive of Well-being representatives
 - Well-being representatives - individuals formally or informally designated by senior leadership to address the well-being of the clinical care team at the clinical site
- Walking Rounds

The Work of Your RRC

- Reviews programs with regards to Common and specialty Program Requirements
- Determines accreditation status for programs
- Proposes revisions to Program Requirements
- Discusses matters of policy, issues relevant to the specialty
- Recommends changes in policy, procedures and requirements to the ACGME Council of Review Committee Chairs

© 2018 ACGME

ADS Annual Updates

- Each year, programs are required to enter data into ADS such as:
 - Faculty information
 - Resident/Fellow information
 - Block diagrams/curricular information
 - Scholarly activity (PD, Faculty, Residents) information
 - Participating site information
 - Responses to previous citations
 - Duty Hour, Patient Safety and Learning Environment information
 - Evaluation information
 - Reporting of major changes in the program

© 2018 ACGME

ADS Annual Updates *cont.*

Data elements for Annual Review, but not entered directly by the program include:

- Resident Survey
- Faculty Survey
- Milestone data
- Certification examination performance (*provided by respective Certifying Boards*)

© 2018 ACGME

ADS Annual Updates *cont.*

- “Traditionally” coordinator’s job
 - Now speaks directly to the Review Committee
- Program Director
 - Responsible for information entered
 - Should assure entries are timely, accurate, complete

© 2018 ACGME

Common Mistakes in Annual Data Collection

- Inaccurate scholarly activity (*e.g., not listing ALL physician specialty faculty and only the FM physician faculty*)
- Program director responsibility for accurate and complete data (*if not there, the Committee cannot determine compliance and may cite the program*)
- Inaccurate physician faculty credentials (*MOC, AOA-boarded, etc.*)
- Identification of **core FM** faculty (*per FM PR II.B.6.a). 1*)

© 2018 ACGME

Role of the RRC in the Accreditation Process

- **Determine** accreditation status based on data review that involves:
 - Reviewing the program's responses to PREVIOUS citations to determine if issues are corrected
 - Reviewing program data to determine substantial compliance with the requirements

© 2018 ACGME

Program Requirements – Focused Revision

Requirement #: IV.A.6.a).(5)

Proposed Requirement Language:

Residents must provide care for a minimum of 1650 in-person FMP patient encounters in the ~~FMP site~~ outpatient setting, including FMP sites, nursing home, and home visits. (Core)

The proposed revision more clearly demonstrates the intent of the requirement. Specifically, the intent was that the minimum outpatient numeric requirement (1650) could include meaningful encounters with patients from the Family Medicine Practice (as a whole) in various settings (such as nursing home and home visits). As currently written, "...FMP site..." implies a location and, as is, could be read as inconsistent with the PRs that follow.

Single GME Accreditation System

Single GME Accreditation System

On February 26, 2014, the ACGME, American Osteopathic Association (AOA), and American Association of Colleges of Osteopathic Medicine (AACOM) announced their agreement to a Memorandum of Understanding (MOU) outlining a single graduate medical education accreditation system in the United States. The single GME accreditation system allows graduates of allopathic and osteopathic medical schools to complete their residency and/or fellowship education in ACGME-accredited programs and demonstrate achievement of common Milestones and competencies.

Read the [Executive Summary of the MOU](#) to learn more about the agreement.

Single GME - Osteopathic Recognition

www.acgme.org/osteopathicrecognition

Osteopathic Recognition

Osteopathic Recognition is a designation conferred by the ACGME's Osteopathic Principles Committee upon ACGME-accredited programs that demonstrate, through a formal application process, the commitment to teaching and assessing Osteopathic Principles and Practice (OPPP) at the graduate medical education level.

The documents and resources housed within this section are provided by the Osteopathic Principles Committee and its staff at the ACGME.

Revised OR Requirements Effective July 1, 2018

Osteopathic Recognition

Osteopathic Recognition is a designation conferred by the ACGME's Osteopathic Principles Committee upon ACGME-accredited programs that demonstrate, through a formal application process, the commitment to teaching and assessing Osteopathic Principles and Practice (OPPP) at the graduate medical education level.

The documents and resources housed within this section are provided by the Osteopathic Principles Committee and its staff at the ACGME.

Milestones Reporting

[What We Do](#) | [Designated Institutional Officials](#) | [Program Directors and Coordinators](#) | [Residents and Fellows](#) | [Meetings and Events](#) | [Data Collection Systems](#) | [Specialties](#)

[Home](#) > [What We Do](#) > [Accreditation](#) > [Milestones](#) > **Milestones**

The screenshot shows the Milestones Reporting page. On the left is a large image of a stone stack on a beach. In the center are four horizontal buttons: RESOURCES, RESEARCH AND ANNUAL REPORTS, ENGAGEMENT, and MILESTONES BY SPECIALTY. On the right is a 'Contact Milestones Staff' section with contact information for three staff members: Senior Vice President, Milestone Development and Evaluation; Vice President, Milestone Research and Evaluation; and Executive Director, Milestone Development and Medical Services. Below this is a 'Feedback and Questions' section with a link to a survey.

Practical Tips for Milestones

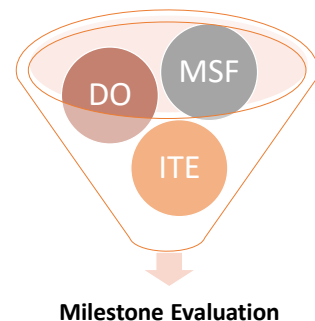

- ✓ Share and discuss the pertinent Milestones set with residents and fellows at the beginning of the program. This helps them to gain a shared understanding of the goals of the program and Milestones.
- ✓ Have residents and fellows complete individualized learning plans, using the Milestones as an important guide.
- ✓ Consider having residents and fellows complete a self-assessment of their Milestones that they can compare and contrast, with a trusted advisor, to the Milestone judgments of the CCC every six months.
- ✓ Enable residents and fellows to seek out assessment (i.e., self-directed assessment seeking), especially direct observation, from faculty members.

Why Can't Milestones Be Used for Regular Evaluations?

- Milestones were designed to be formative
- A repository for other assessments
- Not every Milestone can or should be evaluated on every rotation
- Not everything that should be evaluated is included in the Milestones

The Program Self-Study and the 10-Year Accreditation Site Visit

To-date, 78 Family Medicine Core Programs have been notified to begin the process.

#ACGME2018

The Elements of the Self-Study

- Program Description
- Program Aims
- What does the program strive to “produce?”
- Activities in Furtherance of the Aims
- SWOT Analysis
- An assessment of strengths, areas for improvement, opportunities, threats
- Action Plans
- 5-Year Look Back and 5-Year Look Forward
- Summary of Self-Study Approach
- *“What will take this program to the next level?”*

© 2018 ACGME

The Self-Study Summary

- **Uploaded through ADS after completing the Self-Study**
- **Summary Template: 2300 words (~4-5 pages) for core program, less for small subspecialty programs**
- **Sections: Key Self-Study dimensions**
 - Aims
 - Opportunities and Threats
 - Self-study process
 - “What will take this program to the next level?”
 - Learning from the Self-Study
- **Omitted by design: Information on strengths and areas for improvement**

© 2018 ACGME

The 10-year Site Visit

- A full site visit with review of all applicable program requirements
- An added review of the Self-Study Summary and the improvement described in the Summary of Achievements
- 18 to 24 months after the self-study to allow the program to make improvements
 - A self-study without a concurrent site visit allows for a frank and forthright review of the program
- Discussion of, and provision of verbal feedback on the improvement process

© 2018 ACGME

Bridging the Self-Study and the 10-Year Site visit: The Summary of Achievements

Uploaded via ADS shortly before the 10-year site visit

- **Program Strengths**
 - How they relate to aims and context
- **Achievements in Areas for Improvement**
 - How they relate to aims and context
- **Process for Improvement**
 - Metrics
 - Useful, actionable feedback
- **Lessons Learned**
 - “Best Practices” for sharing

© 2018 ACGME

The 10-Year Site Visit: Format And Reporting

- A team site visit for most core program, and for more core and subspecialty sequences
- Site visit opens with the review of the self-study to provide the context for other sections of the site visit
 - Site Visit will include a formative assesses of the maturity of the program improvement effort using the developmental assessment tool
- Verbal feedback, including feedback on the improvement process at the conclusion of the site visit
- The site visitors prepare a two-part report, with the “accreditation section” followed by a review of the self-study
