

Clinic First

The road to excellence in primary care teaching clinics

Marianna Kong MD & Tom Bodenheimer, MD
Center for Excellence in Primary Care
University of California, San Francisco

AMERICAN ACADEMY OF
FAMILY PHYSICIANS

“When I started in the clinic, **there was chaos**. There were too many patients and we couldn’t take good care of them. [The residents] always had someone sicker in the hospital they needed to go back to... **Clinic was leftovers** – the action was in the hospital. Now, for the first time, clinic is the most important place for the residents and that shows in how the clinic operates and the care we provide.”

- Faculty preceptor in a teaching practice

AMERICAN ACADEMY OF FAMILY PHYSICIANS

The Dilemma

Faculty physicians and residents often spend only 1 – 2 half-days in teaching clinic

Leads to challenges with:

- Continuity
- Access
- Team based care

AMERICAN ACADEMY OF FAMILY PHYSICIANS

The solution: the “double helix”

Dualistic and potentially synergistic relationship between:

clinical care/quality mission

and

teaching/academic mission

AMERICAN ACADEMY OF FAMILY PHYSICIANS

Teaching clinic study

45 primary care
family medicine,
internal medicine,
and pediatric
residency practices

CEPC Site Visits to Teaching Clinics 2013-2017

Clinic First

AMERICAN ACADEMY OF FAMILY PHYSICIANS

The spectrum

Hospital First

Clinic First

AMERICAN ACADEMY OF FAMILY PHYSICIANS

Resident scheduling

- Residents need to be scheduled in clinic
 - **Regularly, predictably, far in advance**
 - With **short intervals** between clinic time
 - With minimal inpatient/outpatient **tension**

- Increase **total clinic time**
 - Average # half days in clinic during training for 9 FM clinics was 350 (range 250-550)

AMERICAN ACADEMY OF FAMILY PHYSICIANS

Baystate IM, Oklahoma-Tulsa FM

- Consistent **2-week mini-block** schedule separates inpatient and outpatient duties
- Residents not away from clinic more than 2 weeks

Continuity from patient perspective with team increased to 80% at Baystate (almost always with one of two providers)

AMERICAN ACADEMY OF FAMILY PHYSICIANS

University of Cincinnati IM

Long outpatient block – months 17-29 of residency fully dedicated to clinic. Aim to provide authentic 12-month experience of primary care.

Did not increase total clinic time for residents, but focuses that time during 12 months.

Enhanced **resident and patient satisfaction**, improved **preventive care** and **continuity**

AMERICAN ACADEMY OF FAMILY PHYSICIANS

University of Washington IM Residency

- Retains 13 4-week block scheduling, but residents attend primary care clinic **for entire days** rather than half-day sessions
- In many rotations, residents attend primary care clinic on the same day each week.
- “Accordion model:”
 - Inpatient → 2 full-day primary care clinics/month
 - Specialty rotations → 4 full-day clinics/month
 - Ambulatory blocks → 4 or more full-day clinics/month

Ray et al, Improving ambulatory training in internal medicine: X + Y (or why not)? JGIM 2016;31:1519-22.

AMERICAN ACADEMY OF FAMILY PHYSICIANS

Minimizing inpatient/outpatient tension

"It's very difficult to focus on outpatient care when on the wards. Long block was a reprieve – and it was really nice to focus on outpatient. **I felt like I could be a real primary care doc and prepare for the real world.** It's amazing how comfortable you get managing a panel independently after a year."

-Resident at Cincinnati Internal Medicine

AMERICAN ACADEMY OF FAMILY PHYSICIANS

Clinic First

AMERICAN ACADEMY OF FAMILY PHYSICIANS

Small core faculty

- Many sites have small core clinic faculty, with each faculty attending in clinic for **at least 0.5 FTE**. Important for:
 - Engagement and leadership in the clinic
 - Resident teaching
 - Continuity
 - Stable teams

AMERICAN ACADEMY OF FAMILY PHYSICIANS

The dispersed – core faculty spectrum

**Many very-
part-time
faculty**

Hybrid

**A few
almost-full-
time faculty**

AMERICAN ACADEMY OF FAMILY PHYSICIANS

Discussion

- Get together with someone at your table or a nearby table who is not from your residency program.
- Discuss with your partner:
 - Whether your primary care teaching clinic has a very-part-time faculty model or a near-full-time faculty model?
 - Do you like your model?
 - If you have many very-part-time faculty in your primary care teaching clinic and would like to move in the direction of more near-full-time faculty, how would you start that process?
- Keep a few notes of good ideas coming from your discussion and e-mail them to margae.knox@ucsf.edu

AMERICAN ACADEMY OF FAMILY PHYSICIANS

Team-based care

Challenges in teaching practices

- How do we consistently pair residents with MAs when residents are so part-time?
- How do we create teams that are the same size every day when scheduling leads to 6 residents in clinic some days and none other days?
- How do we make our teams small enough so that patients feel comfortable with their team?

AMERICAN ACADEMY OF FAMILY PHYSICIANS

Traditional vs. teamlet model

Traditional model

Teamlet model

Over the week:

AMERICAN ACADEMY OF FAMILY PHYSICIANS

Clinician-MA pairing spectrum

**Clinicians
look for any
available MA**

**Each day, MAs are
paired with 1 – 2
clinicians who
may be different
each day**

**Clinicians
work with
same MA each
day in stable
teamlets**

AMERICAN ACADEMY OF FAMILY PHYSICIANS

Stable teamlets

- Greater Lawrence FM:
 - 3 residents to 1 MA per mini-team
 - Team members are rarely shifted away from their home team
 - MAs work with several clinicians, residents and faculty work with the same MA **75-80%** of the time.
- FM Residency at Natividad Medical Center:
 - 4 residents to 2 MAs per team
 - Residents work with one of their 2 MAs **80-90%** of the time
 - Priority for team pairings to R3s, then R2s, then R1s

AMERICAN ACADEMY OF FAMILY PHYSICIANS

Quality of clinic experience

- Meaningful, experiential education in PCMH, QI
- Empowering residents as leaders in clinic

- Training leaders in primary care requires experience with high functioning clinics
- Well functioning clinics lead to positive clinic experiences

AMERICAN ACADEMY OF FAMILY PHYSICIANS

Erie Family Health Center

- Didactics paired with **hands-on**, skills-based clinic improvement work; resident PDSAs
- Collaborative **team education**
 - Residents taught spirometry by RNs, clinic flow by MAs
 - MAs and RNs encouraged to give residents feedback, evaluate residents twice a year
- Clinic morbidity and mortality case conferences include staff participation
- Residents accompany clinic leaders to local and national policy meetings, testify at legislative hearings

AMERICAN ACADEMY OF FAMILY PHYSICIANS

Family Medicine Residency of Idaho

- Legal advocacy training, resolution writing, serving on boards of directors
 - Team-based QI projects
 - Residents on key administrative committees
 - Annual residency feedback
 - Roses, Thorns and Buds
 - Retreats, individual wellness plans
-
- “**The resident voice guides what we do.**” –Director of Education
 - “Faculty and administration listen to us. **We are heard and considered.**” –R3

Worklife in high functioning clinics

“The systems level thinking, primary care transformation, and quality improvement activities trickle down to the **day-to-day, on the ground clinic experience.**”

— Resident at FM Residency of Idaho

“This is what I would want to do for patients in my practice.”

— Resident at Wright Center IM

AMERICAN ACADEMY OF FAMILY PHYSICIANS

Good education for tomorrow's workforce requires excellent care for today's patients

Total Clinic Visits

AMERICAN ACADEMY OF FAMILY PHYSICIANS

Percent Visits With Panel

AMERICAN ACADEMY OF FAMILY PHYSICIANS

Longitudinal Continuity (Percent visits per patient with resident over 3 years)

AMERICAN ACADEMY OF FAMILY PHYSICIANS

Outcomes

- **Residents are FPs**
 - Learn like FPs
 - Know their panel
 - More confident and skilled in inpatient care
 - Think about wellness like a graduate
 - Experience continuity

AMERICAN ACADEMY OF FAMILY PHYSICIANS

Discussion

- Discuss with the same or different partner:
 - 1) Do residents in your program regularly go from inpatient rotations in the morning to clinic in the afternoon?
 - 2) Does this cause stress for the residents?
 - 3) How might you change your scheduling so that residents do not go from inpatient rotations in the morning to clinic in the afternoon?
- Keep a few notes of good ideas coming from your discussion and e-mail them to margae.knox@ucsf.edu

Crozer-Keystone Family
Medicine Residency

Bill Warning, MD

AMERICAN ACADEMY OF
FAMILY PHYSICIANS

Crozer-Keystone FMR

- Three larger color teams (3 attendings, 2 MAs, 9-10 residents)
- Each **teamlet** in clinic consists of one resident, one MA, and one medical student
- Residents usually work with one of the two MAs on their color team

AMERICAN ACADEMY OF FAMILY PHYSICIANS

Team-based care

- Co-location
- Huddles
- Expanded team roles

AMERICAN ACADEMY OF FAMILY PHYSICIANS

Share the care

- Moving from a physician-centered paradigm to a share the care philosophy
- All team members contribute to and feel **ownership** of the health of the team's patient panel
- Culture shift towards **empowerment**, rather than delegation
- Allows expanded team roles

AMERICAN ACADEMY OF FAMILY PHYSICIANS

Resident engagement

"The clinic is the curriculum"

Learning about practice transformation through hands-on experience

- Resident involvement integral to clinic's PCMH redesign
- "Medical home" class representatives
- "Teaching resident" role

AMERICAN ACADEMY OF FAMILY PHYSICIANS

Discussion

- Discuss with the same or different partner:
 - 1) Do you try to pair residents with the same MA or small group of MAs every time the residents are in clinic?
 - 2) Would you like to have stable resident-MA pairings?
 - 3) How might you move in the direction of stable resident-MA pairings?
- Keep a few notes of good ideas coming from your discussion and e-mail them to margae.knox@ucsf.edu
