Audience Instructions: Using the RLS Audience Engagement System

---

Introduction: The **Audience Engagement System** (AES) is accessed through the **RLS app**.
**Note:** The following screen shots are of the 2015 FMX app. The RLS app will be similar.

To Open the AES

1. Simply navigate to **RLS Events** icon

2. Select the session you will be attending:

3. Click on the green Audience Engagement System button

To Answer Poll Questions

4. When the presenter asks a question, you will see it on your device.

Answer and **click on the Submit Button**.
You will be able to see how others are voting once you submit.

To Ask Questions During the Session

Go to the **Social Q&A** area and **click on +Ask**.

Key in your question. Others will be able to see your question, although it will be anonymous.

If you see a question that you think is important, **click on the arrow button next to that question**. It will increase the priority and improve the chances of the presenter answering that question.
