

# UNDERSTANDING MICROBIAL INFECTIONS AND ANTIMICROBIAL RESISTANCE

We are delighted to announce the launch of our new online disease educational resource  
[www.InfectionsAndAMR.com](http://www.InfectionsAndAMR.com)

This website has been developed to provide guidance, tools and resources to understand antimicrobial resistance (AMR), community-acquired pneumonia (CAP) and skin and soft tissue infections (SSTI), including Acute Bacterial Skin and Skin Structure Infections (ABSSSI).

To learn more please visit: [www.InfectionsAndAMR.com](http://www.InfectionsAndAMR.com)

[www.InfectionsAndAMR.com](http://www.InfectionsAndAMR.com) focuses on three key elements:

### Antimicrobial Resistance (AMR)

AMR is a serious threat to global health that requires urgent attention.<sup>1</sup>

### Community-Acquired Pneumonia (CAP)

Pneumonia is an acute infection of the pulmonary parenchyma caused by viral, bacterial, or fungal pathogens.<sup>2</sup>

### Skin and Soft Tissue Infections (SSTIs)

Skin and soft tissue infections refer to a diverse collection of clinical infections involving the layers of the skin and its associated underlying soft tissues.<sup>3</sup>
