U.S. House of Representatives

Dear Chairman Obey and Ranking Member Tiaht:

The Agency for Healthcare Research and Quality (AHRQ) supports research to improve health care quality, reduce costs, advance patient safety, decrease medical errors, and broaden access to essential services—evidence that will support health care transformation. To advance this goal, The Friends of AHRQ endorses the President's FY 2011 budget request of \$611 million. This funding level will generate more and better evidence to help make a measurable difference in health care for all Americans.

With the President's budget request of \$611 million, AHRQ will continue its critical health care safety, quality, and efficiency initiatives; strengthen the infrastructure of the research field; reignite innovation and discovery; develop the next generation of scientific pioneers; and ultimately, help transform health and health care. The Friends of AHRQ thanks you for your ongoing support and looks forward to helping you further strengthen the agency.

The Friends of AHRQ is a coalition of health professional, research, consumer, and employer organizations dedicated to ensuring the agency's continued vital role in improving our nation's health.
