

# 2019 Agenda for the Reference Committee on Education

---

National Conference of Constituency Leaders — Sheraton Kansas City Hotel at Crown Center

<b><u>Item No.</u></b>	<b><u>Resolution Title</u></b>
1. Resolution No. 2001	Resolution to Promote Training in Office-Based Treatment of Opioid Use Disorder
2. Resolution No. 2002	Career Transition Support for Family Physicians
3. Resolution No. 2003	Enhancing Opportunities for Gender-Affirming Care in Residency
4. Resolution No. 2004	Lifestyle Medicine Education Throughout Training and Practice
5. Resolution No. 2005	Longitudinal Electronic Medical Record Training
6. Resolution No. 2006	Applied Education in Billing and Coding in Family Medicine Residency
7. Resolution No. 2007	International Medical Graduate Physician Workforce
8. Resolution No. 2008	Supporting Medical Students and Residents with Disabilities
9. Resolution No. 2009	Providing resources on how to best work with advanced practitioners
10. Resolution No. 2010	Health Care Systems, Health Care Economics, and Health care Policy Categories for Continuing Medical Education
11. Resolution No. 2011	Transparency in AAFP Live Educational Programming
12. Resolution No. 2012	Training in Value Based Payment Model during Residency
13. Resolution No. 2013	Lactation Accommodations at American Board of Family Medicine Testing Centers
14. Resolution No. 2014	Database Development of Family Medicine Residency Program Requirements
15. Resolution No. 2015	Pathway to Critical Care Training
16. Resolution No. 2016	Advocate and Support the Importance of Residency and Fellowship Training in Maternity Care

1 **Resolution NO. 2001**

2  
3 **Resolution to Promote Training in Office-Based Treatment of Opioid Use Disorder**

4  
5 Submitted by: Alex Mroszczyk-McDonald, MD, New Physicians  
6 Tess Lang, MD, New Physicians  
7 Joseph Nichols, MD, MPH, FAAFP, General Registrant  
8

9 WHEREAS, the opioid epidemic now results in nearly 2000 deaths from overdose in the United  
10 States each month. and

11  
12 WHEREAS, more than 2 million persons in the United States now have an opioid use disorder,  
13 and

14  
15 WHEREAS, the use of medications, particularly methadone and buprenorphine, has been  
16 shown to be safe and effective in suppressing illicit opioid use, improving physical and mental  
17 wellbeing, and reducing all cause and overdose mortality, and

18  
19 WHEREAS, only about 6% of approximately 1 million physicians in the United States have  
20 taken an 8-hour training required for prescribing buprenorphine, which is now widely available  
21 for free online, and

22  
23 WHEREAS, in nearly half of counties in the United States, there is not a single physician  
24 authorized to prescribe buprenorphine, and

25  
26 WHEREAS, 77% of residency program directors in family medicine, internal medicine and  
27 psychiatry report that residents frequently manage patients with opioid use disorder, yet only  
28 23% report that their program encourages/requires obtaining the waiver needed to pr, and

29  
30 WHEREAS, residency training in buprenorphine treatment is one of the strongest predictors of  
31 buprenorphine provision for early career family medicine physicians, now, therefore, be it

32  
33 RESOLVED, that the American Academy of Family Physicians urge the Accreditation Council  
34 on Graduate Medical Education (ACGME) to require all residents in clinical specialties to take a  
35 course on the appropriate use of buprenorphine and other medications approved by the US  
36 Food and Drug Administration (FDA) for the treatment of opioid use disorder prior to the end of  
37 the second year of training, and be it further

38  
39 RESOLVED, That the American Academy of Family Physicians urge the Accrediation Council  
40 on Graduate Medical Education (ACGME) to require that all core faculty in residency training  
41 programs in clinical specialties apply for and receive the waiver needed to prescribe  
42 buprenorphine, prior to January 1, 2021, and be it further

43  
44 RESOLVED, That this resolution be sent to CoD.

1 **Resolution NO. 2002**

2  
3 **Career Transition Support for Family Physicians**

4  
5 Submitted by: Maresi Berry-Stoelzle, MD, IMG  
6 Preciosa Pacia-Rantayo, MD, IMG  
7 Nicholas Bird, MD, IMG  
8 Jemelle Jacala-Tadian, MD, IMG  
9 Edmund Ang, MD, IMG

10  
11 WHEREAS, There is a shortage of family physicians in the United States, and

12  
13 WHEREAS, there is a high burnout rate for mid-career physicians in clinical practice leading to  
14 the loss of experienced providers in critical areas, and

15  
16 WHEREAS, a March 2019 survey indicated a burnout rate of 43.9%, suggesting an increasing  
17 future risk, and

18  
19 WHEREAS, there are natural transitions in the career of family physicians as their community  
20 and patients change, and

21  
22 WHEREAS, there is a lack of resources for mid-career family physicians looking to adapt their  
23 clinical practice to reflect these changing patient and provider needs, now, therefore, be it

24  
25 RESOLVED, That the American Academy of Family Physicians should investigate the  
26 development of a toolkit for mid-career transitions, with the focus of retaining physicians in  
27 clinical practice.

1 **Resolution NO. 2003**

2  
3 **Enhancing Opportunities for Gender-Affirming Care in Residency**

4  
5 Submitted by: Allison Myers, MD, MPH, LGBT  
6 Anna McMahan, MD, LGBT  
7 Amanda Meegan, DO, LGBT  
8 James Conniff, MD, New Physicians  
9 Chelsea Unruh, MD, LGBT  
10 Shannon Bentley, MD, LGBT  
11 Stephanie Ho, MD, General Registrant  
12 Nicole Chaisson, MD, Women  
13

14 WHEREAS, Family physicians are trained to treat people of all genders across their lifespan  
15 including transgender and gender non-binary individuals, and  
16

17 WHEREAS, gender-affirming care is lifelong care that falls within the scope and training of  
18 family physicians, and  
19

20 WHEREAS, the Report of the 2015 United States Transgender Survey found that 33% of  
21 respondents had a negative experience with a healthcare provider in the past year, and 24%  
22 who had to teach their provider about transgender people, and  
23

24 WHEREAS, the American Academy of Family Physicians has comprehensive Curriculum  
25 Guidelines for Family Medicine Residents "Lesbian, Gay, Bisexual, Transgender Health," and  
26

27 WHEREAS, these guidelines have not been widely read, implemented, and integrated into  
28 residency curriculum around the country, now, therefore, be it  
29

30 RESOLVED, That the American Academy of Family Physicians update and strengthen the  
31 recommended Curriculum Guidelines for Family Medicine Residents "Lesbian, Gay, Bisexual,  
32 Transgender Health" section titled Knowledge 9.g to read "Comprehensive understanding of  
33 gender-affirming treatment options (medical and non-medical) are in the scope of family  
34 physicians without specialist consult based on informed consent and patient-centered care  
35 models", and be it further  
36

37 RESOLVED, That the American Academy of Family Physicians advocate for family medicine  
38 residencies to actively include transgender health care in their curriculum, specifically promoting  
39 and marketing the Lesbian, Gay, Bisexual, Transgender Health Family Medicine Residency  
40 Curriculum Guidelines that already exist, in particular marketing and promoting these guidelines  
41 at the annual AAFP Program Directors' Workshop, and be it further  
42

43 RESOLVED, That the American Academy of Family Physicians write a letter to the Association  
44 of Family Medicine Residency Directors advocating for the inclusion of gender-affirming care as  
45 part of family medicine residency training.

1 **Resolution NO. 2004**

2  
3 **Lifestyle Medicine Education Throughout Training and Practice**

4  
5 Submitted by: Wesley Eichorn, DO, New Physicians  
6 Kevin Bernstein, MD, MMS, FAAFP, General Registrant  
7 Rosalie Cassidy, MD, General Registrant  
8 Sarah Ledger, DO, Women  
9 Stuti Nagpal, MD, FAAFP, General Registrant  
10 Lisa Nguyen, MD, New Physicians  
11 Alex Mroszczyk-McDonald, MD, New Physicians  
12

13 WHEREAS, Four healthy lifestyle factors: never smoking, maintaining a healthy weight,  
14 exercising regularly, and following a healthy diet, together appear to be associated with as much  
15 as an 80 percent reduction in the risk of developing the most common diseases, and  
16

17 WHEREAS, the Bipartisan Policy Center has called for improving medical education and  
18 training in topics such as nutrition and physical activity that have an important role to play in the  
19 prevention and treatment of obesity and chronic diseases, and  
20

21 WHEREAS, many physicians and other healthcare providers are not adequately trained in  
22 nutrition and physical activity and other lifestyle components in a way that could mitigate  
23 disease development and progression, and  
24

25 WHEREAS, in a report from 2010, only 25% of medical schools surveyed required a dedicated  
26 nutrition course (down from 30% in 2004) and only 27% of schools surveyed met the minimum  
27 25 required hours of nutrition instruction set by the National Academy of Sciences (down from  
28 38% in 2004), and  
29

30 WHEREAS, patients advised to quit smoking by their physicians are 1.6 times more likely to quit  
31 than patients not receiving physician advice, however most smokers do not receive this advice  
32 when visiting their physicians, and  
33

34 WHEREAS, just 34% of United States adults reported exercise counseling at their last medical  
35 visit, and  
36

37 WHEREAS, in a study of internal medicine physicians, less than half reported confidence in  
38 knowledge of local exercise facilities, American College of Sports Medicine guidelines, and  
39 behavior modification techniques, now, therefore, be it  
40

41 RESOLVED, That the American Academy of Family Physicians support legislation that  
42 incentivizes and/or provides funding for the inclusion of lifestyle medicine education in medical  
43 school education, graduate medical education, and continuing medical education, including but  
44 not limited to education in nutrition, physical activity, behavior change, sleep health, tobacco  
45 cessation, alcohol use reduction, emotional wellness, and stress reduction.

1 **Resolution NO. 2005**

2  
3 **Longitudinal Electronic Medical Record Training**

4  
5 Submitted by: Anne Toledo, MD, New Physicians  
6 Jennifer Higa, DO, General Registrant  
7 Dawn Drumm, MD, General Registrant  
8 M. Monjur Alam, MD, New Physicians  
9

10 WHEREAS, The American Academy of Family Physicians (AAFP) specifies that non-clinical  
11 topics including practice management qualifies as Continued Medical Education (CME), and  
12

13 WHEREAS, the AAFP policy on Electronic Health Records (EHR) states that every family  
14 physician should leverage health information technology, and  
15

16 WHEREAS, physician trainees report documentation workload as a barrier to optimal patient  
17 care, and  
18

19 WHEREAS, 'too much paperwork' is cited as a leading cause of burn-out in physician practice,  
20 now, therefore, be it  
21

22 RESOLVED, That the American Academy of Family Physicians support dedicated electronic  
23 health record training outside of clinical time, and be it further  
24

25 RESOLVED, that the American Academy of Family Physicians recommend employers  
26 differentiate between experienced and inexperienced electronic health record users and provide  
27 trainings in accordance with experience level, and be it further  
28

29 RESOLVED, that the American Academy of Family Physicians recommend employers provide  
30 follow up electronic health record (EHR) training separate from scheduled patient appointments  
31 at least several months after a provider's initial orientation to improve use of EHR, efficiency,  
32 and decrease burnout, and be it further  
33

34 RESOLVED, that the American Academy of Family Physicians (AAFP) support the use of  
35 electronic health record (EHR) training as continuing medical education hours and that the  
36 AAFP offer EHR training during state and national conferences.

1 **Resolution NO. 2006**

2  
3 **Applied Education in Billing and Coding in Family Medicine Residency**

4  
5 Submitted by: Laura Nietfeld, MD, New Physicians  
6 Dawn Drumm, MD, General Registrant  
7 Sumedh Mankar, DO, MPH, General Registrant  
8 M. Monjur Alam, MD, MHA, New Physicians  
9

10 WHEREAS, Medical students are persuaded to select specialties based on potential earnings,  
11 and

12  
13 WHEREAS, accuracy of billing is often tied to direct financial compensation, and

14  
15 WHEREAS, all practicing physicians must be in compliance with the Centers for Medicare and  
16 Medicaid Services standards of billing and coding, and

17  
18 WHEREAS, residency programs have variable education in billing and coding and in practice  
19 management rotations, and

20  
21 WHEREAS, applied coaching and feedback is critical to learning skills, and

22  
23 WHEREAS, the American Academy of Family Physicians has developed Recommended  
24 Curriculum Guidelines for Family Medicine Residents Health Systems Management AAFP  
25 Reprint No 290C, now, therefore, be it

26  
27 RESOLVED, That American Academy of Family Physicians strongly recommend that family  
28 medicine residencies offer applied education in person (with preceptor or professional coders) in  
29 billing and coding, and be it further

30  
31 RESOLVED, That the next update of the American Academy of Family Physicians practice  
32 management curriculum guidelines include that residency annual billing and coding workshops  
33 emphasize an applied component of billing and coding, and be it further

34  
35 RESOLVED, That the American Academy of Family Physicians offer an applied billing and  
36 coding workshop at the National Conference of Family Medicine Residents and Medical  
37 Students.

1 **Resolution NO. 2007**

2

3 **International Medical Graduate Physician Workforce**

4

5 Submitted by: Timothy Yu, MD, IMG  
6 Viviane Sachs, MD, IMG  
7 Oksana Marroquin, MD, IMG  
8 Leslie Griffin, MD, MPH, IMG  
9 Tamer Said, MD, General Registrant  
10 Brenainn Flanagan, MD, IMG  
11 Maria Colon-Gonzalez, MD FAAFP, Minority  
12

13 WHEREAS, 12, 355 international medical graduates (IMGs) participated in the 2017 National  
14 Resident Matching Program (The Match), and

15

16 WHEREAS, IMGs provide care in many of the nation's poorest and most rural communities, and

17

18 WHEREAS, the number of non-United States citizen IMGs who participated in the Match  
19 declined for the third consecutive year in 2018, now, therefore, be it

20

21 RESOLVED, That the American Academy of Family Physicians explore alternative pathways  
22 and options for physicians who have passed U.S. Medical Licensing Examination and  
23 graduated from United States (US) and non-U.S. medical school to deliver care under the  
24 supervision of a licensed family physician, and be it further

25

26 RESOLVED, That the American Academy of Family Physicians support International Medical  
27 Graduate physicians to practice under a licensed family physician under a the assistant  
28 physician model, and be it further

29

30 RESOLVED, That the American Academy of Family Physicians develop this tract for these  
31 physicians with the exception for them to continue to pursue family medicine residency training.

1 **Resolution NO. 2008**

2  
3 **Supporting Medical Students and Residents with Disabilities**

4  
5 Submitted by: Moira Rashid, MD, General Registrant  
6 Carrie Pierce, MD, Women  
7 Angeline Ti, MD, MPH, New Physicians  
8 Carrie McClean, MD, New Physicians  
9

10 WHEREAS, The Americans with Disabilities Act (ADA) defines a person with a disability as a  
11 person who has a physical or mental impairment that substantially limits one or more major life  
12 activity, and

13  
14 WHEREAS, physician diversity improves care for underserved populations, while 20% of  
15 Americans live with disabilities, only 2% of practicing physicians do, and

16  
17 WHEREAS, Accreditation Council for Graduate Medical Education supports systems of care  
18 and learning environments that facilitate fatigue mitigation for residents and fellows, and

19  
20 WHEREAS, medical students and residents face discrimination and barriers in training posed by  
21 technical standards for medical education and obtaining accommodations; a 2016 study found  
22 that most medical school's technical standards do not support provision of reasonable  
23 accommodations for students with disabilities as intended by the ADA, and

24  
25 WHEREAS, the American Academy of Family Physicians opposes all discrimination in any  
26 form, including but not limited to, that on the basis of actual or perceived race, color, religion,  
27 gender, sexual orientation, gender identity, ethnic affiliation, health, age, disability, economic  
28 status, body habitus or national origin, and

29  
30 WHEREAS, trainees with disabilities and mental health are more likely to be perceived as lazy  
31 or not fulfilling their residential duties, and do not always receive the support they need to  
32 complete training, and

33  
34 WHEREAS, family physicians have a moral, ethical and professional imperative to call out  
35 ableism in our profession, in our communities, and in ourselves, and

36  
37 RESOLVED, That the American Academy Family Physicians support and affirm the rights of  
38 medical students and residents with disabilities throughout their education and training, and be it  
39 further

40  
41 RESOLVED, That the American Academy Family Physicians supports funding for research to  
42 better understand the needs of medical students and physicians with disabilities, and be it  
43 further

44  
45 RESOLVED, That the American Academy Family Physicians send a letter to the Association of  
46 American Medical Colleges and Accreditation Council for Graduate Medical Education asking  
47 them to redefine the technical standards and core competencies in medical education at the  
48 undergraduate and graduate levels to more effectively accommodate medical students and  
49 residents with disabilities.

1 **Resolution NO. 2009**

2  
3 **Providing resources on how to best work with advanced practitioners**

4  
5 Submitted by: Megan Guffey, MD, MPH, FAAFP, Women  
6 Kristen Newsom, MD, Women  
7 Anna Marie Hailey-Sharp, MD, Women  
8

9 WHEREAS, Advanced practitioners are becoming a larger and larger part of the practice of  
10 family medicine, and

11  
12 WHEREAS, advanced practitioners have different levels of independence in different states,  
13 and

14  
15 WHEREAS, family physicians have different levels of experience in working with advanced  
16 practitioners, and

17  
18 WHEREAS, the American Academy of Family Physicians currently has general guidelines on  
19 working with advanced practitioners, but nothing specific, now, therefore, be it

20  
21 RESOLVED, That the American Academy of Family Physicians work with the appropriate  
22 commission to create a session at the Family Medicine Experience on best practices on working  
23 with advanced practitioners including but not limited to, best practice models, payment models,  
24 amount of chart review, patient co-management strategies, education, delineated roles and  
25 responsibilities, and patient selection, and be it further

26  
27 RESOLVED, That the American Academy of Family Physicians send a letter to the editorial  
28 board of *Family Practice Management* journal asking for a special issue on best practices for  
29 family medicine physicians to perform advanced practitioner management.

1 **Resolution NO. 2010**

2  
3 **Health Care Systems, Health Care Economics, and Health care Policy Categories for**  
4 **Continuing Medical Education**

5  
6 Submitted by: Ean Bett, MD, New Physicians  
7 Andrew Parad, MD, LGBT  
8 Laura Kaplan-Weisman, MD, LGBT  
9 Anita Ravi, MD, New Physicians  
10 Richard Bruno, MD, General Registrant  
11 Rupal Bhingradia, MD, General Registrant  
12 Roma Anim, MD, Minority  
13 Nicholas Bird, MD, IMG  
14 Jemellee Jacala-Tadian, MD, IMG  
15

16  
17 WHEREAS, In 2018 the American Academy of Family Physicians (AAFP) passed a resolution  
18 (Resolution No. 502) to include educational content pertinent to health care systems,  
19 economics, and financing in educational materials and national lectures, and  
20

21 WHEREAS, without an appropriate category these topics are subject to decreased submissions  
22 and increased rejections, and  
23

24 WHEREAS, the education of AAFP members has been impeded by there not being an  
25 appropriate category to submit lecture ideas, now, therefore, be it  
26

27 RESOVLED, That the American Academy of Family Physicians add the continuing medical  
28 education (CME) category "Health Care Systems, Health Care Economics, and Health Care  
29 Policy" to help facilitate the development of online educational materials and facilitate CME  
30 lectures at the National Conference for Constituency Leaders, National Conference of Family  
31 Medicine Residents and Students, Family Medicine Experience, and other educational platforms  
32 for 2020 and beyond, and be it further  
33

34 RESOVLED, That this resolution be referred to the Congress of Delegates.

1 **Resolution NO. 2011**

2

3 **Transparency in AAFP Live Educational Programming**

4

5 Submitted by: Brent Sugimoto, MD, FAAFP, LGBT  
6 Benjamin Silverberg, MD, MSc, FAAFP, LGBT  
7 James Conniff, MD, New Physicians

8

9

10 WHEREAS, The American Academy of Family Physicians live programming needs an  
11 appropriate breadth to serve the educational needs of a membership that cares for all patients,  
12 including marginalized populations, and

13

14 WHEREAS, calls for continuing education proposals may list topics, but solicited topics do not  
15 necessarily reflect the final programming of a live educational event, and

16

17 WHEREAS, unsolicited proposals have an opaque process and timeline, and

18

19 WHEREAS, it may be difficult for membership to assess the proportion of themes and topics in  
20 final programming, now, therefore, be it

21

22

23 RESOLVED, That the American Academy of Family Physicians publish proportions and/or total  
24 number of presentations categorized by explicit theme (e.g., LGBT, women's health, pediatrics,  
25 etc.).

1 **Resolution NO. 2012**

2

3 **Training in Value Based Payment Model during Residency**

4

5 Submitted by: Sumedh Mankar, DO, MPH, FCAPM, General Registrant  
6 M. Monjur Alam, MD, MHA, New Physicians  
7 Anne Toledo, MD, New Physicians  
8 Dawn Drumm, MD, General Registrant

9

10 WHEREAS, Alternative Payment Models (APM) and Value Based Payment (VBP) is being  
11 adopted by the Centers of Medicare and Medicaid Services (CMS) and health insurance  
12 agencies in the United States, and

13

14 WHEREAS, most academic centers and healthcare delivery organizations are still operating in a  
15 fee-for-service model, and

16

17 WHEREAS, resident physicians may not be adequately prepared to integrate APM or VBP into  
18 their practices, and

19

20 WHEREAS, The American Academy of Family Physicians has excellent resources online to  
21 help family physicians understand APM and VBP, now, therefore, be it

22

23 RESOLVED, That the American Academy of Family Physicians send a letter to the Review  
24 Committee for Family Medicine to formally teach Value Based Payment Model in Residency  
25 Training, and be it further

26

27 RESOLVED, That the American Academy of Family Physicians encourage Value Based  
28 Payment Model educational tracks at the National Conference for Family Medicine Residents.

1 **Resolution NO. 2013**

2

3 **Lactation Accommodations at American Board of Family Medicine Testing Centers**

4

5 Submitted by: Cadey Harrel, MD, General Registrant  
6 Marty Player, MD, LGBT  
7 Michelle Quiogue, MD, General Registrant  
8 Marty Lu, MD, Minority

9

10 WHEREAS, The American Board of Family Medicine currently requires women who are  
11 lactating to provide a doctor's note to request break time for expressing breast milk during the  
12 national family medicine board examination, and

13

14 WHEREAS, the availability of standard conditions at the testing centers for expressing  
15 breastmilk during this exam do not exist, and

16

17 WHEREAS, women represent approximately roughly 50% of the population, innately have the  
18 ability to lactate and the expertise to know whether they are lactating, and lactation has major  
19 health implications for both mother and child, now, therefore, be it

20

21 RESOLVED, That the American Academy of Family Physicians write a letter to the American  
22 Board of Family Medicine requesting they eliminate the need for a physician's note  
23 documenting lactation for a physician mother to have protected break time during her family  
24 medicine board examination and, be it further

25

26 RESOLVED, That the American Academy of Family Physicians include in a letter to the  
27 American Board of Family Medicine a request that all testing centers have adequate designated  
28 locations for breastmilk expression and secure breast pump storage.

1 **Resolution NO. 2014**

2  
3 **DATABASE DEVELOPMENT OF FAMILY MEDICINE RESIDENCY PROGRAM**  
4 **REQUIREMENTS**

5  
6 Submitted by: Ladona Schmidt, MD, IMG  
7 Maria Novella Papino, MD, IMG  
8 Tobe Momah, MD, IMG  
9 Olusola Adegoke, MD, MPH, IMG

10  
11 WHEREAS, There is a shortage of primary care physicians with a projected 100,000 physician  
12 shortage by 2030, and

13  
14 WHEREAS, there is a limited awareness of family medicine residency program requirements  
15 including visa requirements, years post graduation allowed to apply, and clinical experience in  
16 the United States, and

17  
18 WHEREAS, international medical graduates have difficulty accessing information on United  
19 States family medicine program requirements, and as a result are recommended to apply to  
20 more than a hundred programs at great cost to them, now, therefore, be it

21  
22 RESOLVED, That the American Academy of Family Physicians collaborate with Family  
23 Medicine programs in the United States to create and update a database that comprehensively  
24 stipulates what each family medicine residency program requires per applicant in terms of visa  
25 sponsorship, years post-graduation of medical school allowed to apply, and how much U.S.  
26 clinical experience is required amongst other requirements, and be it further

27  
28 RESOLVED, That the American Academy of Family Physicians improve visibility to links with  
29 FREIDA™, the American Medical Association Residency and Fellowship Database®, in order to  
30 educate United States based and international medical graduate applicants on family medicine  
31 residency requirements.

1 **Resolution NO. 2015**

2

3 **Pathway to Critical Care Training**

4

5 Submitted by: Megan Mahowald, MD, Women  
6 Nicole Shields, MD, Women

7

8 WHEREAS, A great number of family medicine physicians are currently practicing hospital  
9 medicine and nearly 50% treat patients in an intensive care unit (ICU), and

10

11 WHEREAS, there is a shortage of critical care physicians in the United States, predominantly in  
12 rural and underserved areas, and

13

14 WHEREAS, the American Academy of Family Physicians believes that qualified physicians  
15 should be granted privileges in special/critical care units based on documented training and/or  
16 experience, demonstrated abilities and current competence, and

17

18 WHEREAS, critical care fellowships and eligibility for the board certification is currently limited to  
19 physicians from internal medicine, emergency medicine, obstetrics and gynecology, surgery,  
20 neurology, and anesthesia, and

21

22 WHEREAS, there is currently no pathway for family medicine physicians to pursue further  
23 training through a critical care fellowship or attain board certification through the American  
24 Board of Internal Medicine, now, therefore, be it

25

26 RESOLVED, That the American Academy of Family Physicians collaborate with the American  
27 Board of Internal Medicine (ABIM) to allow family medicine physicians to sit for ABIM Critical  
28 Care Board Exam which will, in turn, make family medicine physicians eligible to attend critical  
29 care fellowships.

1 **Resolution NO. 2016**

2  
3 **Advocate and Support the Importance of Residency and Fellowship Training in Maternity**  
4 **Care**

5  
6 Submitted by: Shannon Bentley, MD, LGBT  
7 Katherine Patterson, MD, LGBT  
8 Brenainn Flanagan, MD, IMG  
9 Ivonne McLean, MD, General Registrant

10  
11 WHEREAS, Since the inception of family medicine as a speciality in 1969 maternity care has  
12 always been included in Family Medicine Residency training, and

13  
14 WHEREAS, American College of Obstetricians and Gynecologists (ACOG) projects that by  
15 2030 there will be a nationwide shortage of 9000 obstetricians and gynecologists further  
16 supporting the need for commitment of the American Academy of Family Physicians to  
17 maternity care in residency/fellowship education as well as in practicing physicians, and

18  
19 WHEREAS, the report from nine Maternal Mortality Review Committees confirms that "most  
20 pregnancy-related deaths are preventable and highlights key opportunities for prevention," and

21  
22 WHEREAS, given the unique training of family medicine physicians, we are well equipped and  
23 prepared to address current alarming trends predicting maternity care provider shortages in the  
24 future and the rise of maternal/infant morbidity and mortality in the United States, now,  
25 therefore, be it

26  
27 RESOLVED, That the American Academy of Family Physicians advocate to prevent residency  
28 and fellowship training in maternity care from being reduced or displaced by obstetricians and  
29 gynecologists residencies in current residency and fellowship training sites, and be it further

30  
31 RESOLVED, That the American Academy of Family Physicians advocate to support these  
32 current residency and fellowship training sites as resources of leadership and mentorship in  
33 Family Medicine Maternity Care training, and be it further

34  
35 RESOLVED, That a Certificate of Added Qualification be evaluated for maternity care in the  
36 future.
