15 with their state legislatures to eliminate preauthorization requirements for buprenorphine.  
16

17 The reference committee heard testimony in support of the resolution that prior authorization  
18 delays of buprenorphine is an administrative burden that can result in relapse and harm for

40 forced to present identification documents which do not list the correct gender identity creates  
41 barriers to health equity as well as stress for patients. Speakers suggested that this resolution was  
42 an appropriate extension of current AAFP policy. The reference committee agreed to adopt the  
43 resolution.  
44

45 **RECOMMENDATION: The reference committee recommends that Resolution No. 1005 be**  
46 **adopted.**

6 health issues raised by the prospect of oil leaks as well as environmental racism. The reference  
7 committee had a lengthy discussion recognizing the significance to those affected. Members of the  
8 reference committee expressed concerns about the value of the AAFP taking on this issue at this

20

21 The reference committee heard testimony in support of the resolution which described the  
22 treatment of sexual assault victims threatened with incarceration if they do not testify. The  
23 reference committee agreed that this resolution represented an important addition to current AAFP  
24 policy and agreed to clarify the second resolved clause by adding the word "policy."  
25

26 **RECOMMENDATION: The reference committee recommends that Substitute Resolution No.**  
27 **1007, which reads as follows, be adopted in lieu of Resolution No. 1007:**

39

40 RESOLVED, That the American Academy of Family Physicians investigate qualifying  
41 employment within the Public Service Loan Forgiveness program, and be it further  
42

43 RESOLVED, That the American Academy of Family Physicians provide guidance to its  
44 members about qualifying employment for the Public Service Loan Forgiveness program.  
45

46 The reference committee heard testimony from several members in support of the resolution. The  
47 speakers expressed concerns about changes being made by the U.S. Department of Education to  
48 the Public Service Loan Forgiveness program which effectively excludes certain employment from  
49 qualifying for the loan forgiveness. One of the authors of the resolution agreed with reference  
50 committee members who suggested that the second and third resolved clauses are not necessary  
51 to accomplish the aims of the resolution.  
52

1 **RECOMMENDATION: The reference committee recommends that Substitute Resolution No.**  
2 **1008, which reads as follows, be adopted in lieu of Resolution No. 1008:**

3  
4 **RESOLVED, That the American Academy of Family Physicians use its legislative**  
5 **advocacy and lobbying efforts to encourage transparency by the Public Service Loan**  
6 **Forgiveness program about qualifying employment for its program.**

7

17 who meet usual standards of eligibility, and be it further  
18

19 RESOLVED, That the American Academy of Family Physicians send an updated letter to  
20 the appropriate members of the U.S. Congress reiterating our continued firm and  
21 unwavering support for funding of the family planning program as authorized by Title X of  
22 the Public Health Service Act of 2017 and opposing the addition of new restrictions.  
23

24 The reference committee heard testimony from several members in support of the resolution. The  
25 speakers recognized that this resolution calls on the AAFP to reiterate our current policy in the face  
26 of threats from the current Administration. The reference committee members were informed that  
27 the AAFP sent a communication to the Congress in support of Title X funding in March, 2017.  
28

29 **RECOMMENDATION: The reference committee recommends that Resolution No. 1009 be**  
30 **adopted.**

31  
32 **ITEM NO. 10: RESOLUTION NO. 1010: SUPPORT REAUTHORIZATION OF THE RYAN WHITE**  
33 **CARE ACT**

34  
35 RESOLVED, That the American Academy of Family Physicians publicly support Ryan  
36 White Care Act funding, when proposed for reauthorization for the care of individuals and  
37 communities affected by HIV and the continuation of programs related to HIV prevention  
38 and treatment.  
39

40 The reference committee heard testimony in support of this resolution from one member who  
41 stated that this funding is essential for some practices and patients. The reference committee  
42 agreed to recommend that the resolution be adopted.  
43

44 **RECOMMENDATION: The reference committee recommends that Resolution No. 1010 be**  
45 **adopted.**

46  
47 **ITEM NO. 11: RESOLUTION NO. 1011: SUPPORT FOR TRIBAL SOVEREIGNTY**

48  
49 RESOLVED, That the American Academy of Family Physicians recognize the right of tribal  
50 sovereignty on tribal land, and be it further  
51

1 RESOLVED, That the American Academy of Family Physicians write a policy in support of  
2 tribal rights to prosecute sexual assault cases against non-Native defendants in tribal  
3 courts.  
4

5 The reference committee heard testimony from several members in support of the resolution. The  
6 speakers described the barriers to justice for Native American victims of sexual assault because  
7 crimes perpetrated by non-Native Americans occurring on tribal land cannot be investigated by  
8 tribal police or prosecuted by tribal authorities. The reference committee recognized that the  
9 prevalence of sexual assault and the inability to charge non-Native Americans in the tribal justice  
10 system is a significant problem, but they agreed that recognizing the right of tribal sovereignty is  
11 beyond AAFP's scope.  
12

13 **RECOMMENDATION: The reference committee recommends that Resolution No. 1011 not**  
14 **be adopted.**  
15

17 **ARE ESSENTIAL BENEFITS**

20 allows insurers to opt out of maternity and reproductive health coverage, and be it further  
21

22 RESOLVED, That the American Academy of Family Physicians issue a formal statement  
23 affirming that maternity and reproductive health services are essential to general health  
24 care and should be covered under all insurance plans.  
25

26 The reference committee heard testimony in support of the resolution on the value of reproductive  
27 health coverage. The reference committee agreed to recommend that the resolution be adopted.  
28

29 **RECOMMENDATION: The reference committee recommends that Resolution No. 1012 be**  
30 **adopted.**  
31

32 **ITEM NO. 13: RESOLUTION NO. 1013: SUPPORT TELEMEDICINE MEDICATION ABORTION**  
33

34 RESOLVED, That the American Academy of Family Physicians oppose legislation that  
35 singles out medication abortion as a service to ban from telemedicine care.  
36

37 The reference committee heard testimony on both sides of this resolution. Supporters of the  
38 resolution cited research findings that medication abortion using telemedicine was safe and  
39 effective. Opponents expressed concerns about incomplete abortions or other harms to patients.  
40 The reference committee agreed to recommend that the resolution be adopted because physicians  
41 should decide what works for telemedicine without governmental intervention to stigmatize or  
42 exclude specific interventions.  
43

44 **RECOMMENDATION: The reference committee recommends that Resolution No. 1013 be**  
45 **adopted.**  
46

47 **ITEM NO. 14: RESOLUTION NO. 1014: OPPOSE THE TRUMP ADMINISTRATION EXECUTIVE**  
48 **ORDER TO WITHHOLD FEDERAL FUNDING TO SANCTUARY CITIES**  
49

50 RESOLVED, That the American Academy of Family Physicians write a letter to President  
51 Trump voicing its opposition to Executive Order 13768 regarding sanctuary cities, and be it  
52 further

1 RESOLVED, That the American Academy of Family Physicians use its legislative advocacy  
2 and lobbying efforts to oppose congressional action that would withhold federal funding to  
3 sanctuary cities.  
4

5 The reference committee heard testimony that was supportive of the resolution. Speakers noted  
6 that fewer patients are seeking care due to Immigration and Customs Enforcement presence at  
7 care centers. The reference committee agreed with the first resolved clause, but found that the  
8 second resolved clause would be costly to the AAFP and outside of its strategic priorities.  
9

10 **RECOMMENDATION: The reference committee recommends that Substitute Resolution No.**  
11 **1014, which reads as follows, be adopted in lieu of Resolution No. 1014:**  
12

13 **RESOLVED, That the American Academy of Family Physicians write a letter to**  
14 **President Trump voicing its opposition to Executive Order 13768 regarding**  
15 **sanctuary cities.**

18

19 RESOLVED, That the American Academy of Family Physicians support the removal of  
20 legislative and logistical barriers to adoption by Lesbian, Gay, Bisexual, and Transgender  
21 (LGBT).  
22

23 The reference committee heard testimony in support of the resolution. One member expressed  
24 frustration that although the AAFP policy in support of LGBT adoption was established in 2002, it  
25 was difficult to find on the AAFP policy website. The reference committee agreed with the  
26 resolution but agreed to add the term “people” at the end of the resolved clause.  
27

28 **RECOMMENDATION: The reference committee recommends that Substitute Resolution No.**  
29 **1015, which reads as follows, be adopted in lieu of Resolution 1015:**  
30

31 **RESOLVED, That the American Academy of Family Physicians support the removal**  
32 **of legislative and logistical barriers to adoption by Lesbian, Gay, Bisexual, and**

34

35 **ITEM NO. 16: RESOLUTION NO. 1016: SUPPORT HEALTH CARE FOR UNDOCUMENTED**  
36 **PATIENTS AND THEIR FAMILIES**  
37

38 RESOLVED, That the American Academy of Family Physicians create a policy statement  
39 supporting the provision of health care for all patients regardless of immigration status, and  
40 be it further

41 RESOLVED, That the American Academy of Family Physicians should create a physician  
42 tool kit to help physicians address knowledge gaps surrounding immigrant health care,  
43 including but not limited to the legal rights of undocumented patients as well as clinical  
44 medical care, and be it further

45 RESOLVED, That the American Academy of Family Physicians create a policy statement  
46 opposing required collection or reporting on immigration status data, and be it further

47 RESOLVED, That the American Academy of Family Physicians lobby for legislation that  
48 would ensure continued access to health care among undocumented immigrants and their  
49 families and oppose any legislation that would decrease access to care.

1 The reference committee heard testimony in support of the resolution. One speaker noted that  
2 3.5% of the U.S. population is undocumented, and others expressed concerns that undocumented  
3 women were increasingly unwilling to undergo prenatal care over fears of arrest and deportation.  
4 The reference committee agreed to recommend that the resolution be adopted.

5  
6 **RECOMMENDATION: The reference committee recommends that Resolution No. 1016 be**  
7 **adopted.**

8  
9 **I wish to thank those who appeared before the reference committee to give testimony and**  
10 **the reference committee members for their invaluable assistance. I also wish to commend**  
11 **the AAFP staff for their help in the preparation of this report.**
