ACTIVITY DISCLAIMER

The material presented here is being made available by the American Academy of Family Physicians for educational purposes only. Please note that medical information is constantly changing; the information contained in this activity was accurate at the time of publication. This material is not intended to represent the only, nor necessarily best, methods or procedures appropriate for the medical situations discussed. Rather, it is intended to present an approach, view, statement, or opinion of the faculty, which may be helpful to others who face similar situations.

The AAFP disclaims any and all liability for injury or other damages resulting to any individual using this material and for all claims that might arise out of the use of the techniques demonstrated therein by such individuals, whether these claims shall be asserted by a physician or any other person. Physicians may care to check specific details such as drug doses and contraindications, etc., in standard sources prior to clinical application. This material might contain recommendations/guidelines developed by other organizations. Please note that although these guidelines might be included, this does not necessarily imply the endorsement by the AAFP.

DISCLOSURE

It is the policy of the AAFP that all individuals in a position to control content disclose any relationships with commercial interests upon nomination/invitation of participation. Disclosure documents are reviewed for potential conflict of interest (COI), and if identified, conflicts are resolved prior to confirmation of participation. Only those participants who had no conflict of interest or who agreed to an identified resolution process prior to their participation were involved in this CME activity.

All individuals in a position to control content for this session have indicated they have no relevant financial relationships to disclose.

The content of my material/presentation in this CME activity will not include discussion of unapproved or investigational uses of products or devices.

Marian Wymore, MD, CPC, CRC

Physician documentation improvement consultant, Redondo Beach, California

Dr. Wymore earned a medical degree from Wayne State University School of Medicine in Detroit, Michigan, and completed her family medicine residency at the University of Southern California (USC) Presbyterian Intercommunity Hospital in Whittier. A diplomate of the American Board of Family Medicine (ABFM), she has 20 years of clinical experience in inpatient and outpatient family medicine for patients of all ages. In addition, she has been a professional speaker and consultant for 20 years. Dr. Wymore is a certified professional coder (CPC) and a certified risk adjustment coder (CRC). In her current role, she audits medical records and educates coders and other health care professionals across the country on how to improve clinical documentation and coding, including ICD-10-CM, risk adjustment, hierarchical condition categories (HCCs), quality, and STARS (Medicare Five-Star Quality Rating System). Her passion for patient and physician education has led her to create customized programs focused on many different health-related conditions, disease prevention, lifestyle transformation, management of chronic disease, and team building. Dr. Wymore writes newspaper and magazine articles, and has been featured on CBS News and KNX radio.

FMX

Learning Objectives

1. Discuss strategies to optimize patient care, while providing proper documentation of the associated diagnosis or condition, for optimal ICD-10 compliance.
