

**2018 AAFP Global Health Summit
Hyatt Regency Jacksonville**

List of Exhibitors

AAFP Advanced Life Support in Obstetrics (ALSO) – www.aafp.org/also

Booth #10

Advanced Life Support in Obstetrics (ALSO) provider and instructor courses are administered in 80 countries. These obstetric emergency training programs help health care providers throughout the world develop and maintain the knowledge and skills they need to effectively manage emergencies during the perinatal period.

AAFP Division of Health of the Public – www.aafp.org

Booth #2

The AAFP Health of the Public and Science Division is a leader in advancing public health and science initiatives to improve health. Along with the Center for Diversity and Health Equity, the division provides resources and information to help family physicians care for patients, families, and communities more efficiently.

AAFP Foundation: *Family Medicine Cares International* - www.aafpfoundation.org

Booth #4

Family Medicine Cares International, a program of the AAFP Foundation, addresses the health care needs of the underserved, by providing patient care, delivering education and training in Family Medicine, and working to improve the health and quality of life of those in need. Get involved with us in Haiti!

American Association for Physician Leadership (AAPL)

Booth #11

AAPL helps physicians develop their leadership. Our Association helps transform the physician by maximizing the potential of physician leadership to create personal and organizational transformation that benefits patient outcomes and improves health care internationally.

Digital African Health Library

Booth #12

The Digital African Health Library is an integrated, smart-phone-based suite of 30 evidence-based and Africa relevant clinical decision resources utilizing a common search engine designed to support a life-long learning approach for students, residents and primary care practitioners in Africa.

Dr. Ann McLannly Global Health Books (Print/Digital)

Booth #3

Follow family physician Dr. Ann as she navigates landscapes and cultures during conflicts that garnered little media attention when they occurred. Your adrenaline will pump as you become addicted to the intrigue, romance, and the challenge of practicing medicine on unfamiliar ground.

Fund for Global Health

Booth #7

Fund for Global Health offers the opportunity to make a difference on U.S. foreign aid for global health by working with your Member of Congress, sharing your global health experiences and concerns. We are seeking medical professionals and students to join our advocacy network.

INMED - <http://www.inmed.us>

Booth #1

The Institute for International Medicine (INMED) is a non-profit educational organization with a mission to equip healthcare professionals & students with the unique skills necessary to effectively serve the world's most forgotten people.

Phoenix Area Indian Health Service**Booth #9**

Discover job opportunities in “Global Health in our Own Backyard” with the Phoenix Area Indian Health Service. Practice the full spectrum of Family Medicine as you live and work cross-culturally, caring for medically underserved but culturally vibrant native communities within the United States. Student/resident rotations also available.

Shoreland, Inc**Booth #8**

Shoreland, Inc. is the industry leader in providing accurate, comprehensive, and current travel health guidance. Whether the threat is dengue fever for a recreational traveler, political violence for a business traveler, or the availability of reliable medical infrastructure for expatriates affected by a natural disaster, the Shoreland team provides up-to-date knowledge and carefully reasoned recommendations.

The Addis Clinic**Booth #6**

We use telemedicine technology to connect volunteer physicians with local organizations providing frontline healthcare to vulnerable and underserved populations. Find out how you can volunteer globally from your home or office!

UCSF HEAL Initiative**Booth #5**

The HEAL Initiative recruits US-trained physicians who are passionate about global health equity. During the two-year fellowship, HEAL fellows are immersed at partner organizations aiding the underserved, splitting their time between a US and an international site. Fellows participate in training and mentorship and pursue a graduate degree.
