Audience Instructions: Using the PDW and RPS Audience Response System

**Introduction:** The Audience Engagement System (AES) is accessed through the PDW-RPS app.

**Note:** The following screen shots are of the 2015 FMX app. The PDW RPS app will be similar.

### To Open the AES

1. Simply navigate to **PDW or RPS Events** icon

![PDW or RPS Events icon](image1.png)

2. Select the session you will be attending:

![Selecting a session](image2.png)

3. Click on the green Audience Engagement System button

### To Answer Poll Questions

4. When the presenter asks a question, you will see it on your device.

![Poll question](image4.png)

Answer and **click on the Submit Button**. You will be able to see how others are voting once you submit.
To Ask Questions During the Session

Go to the Social Q&A area and click on +Ask.

Key in your question. Others will be able to see your question, although it will be anonymous.

If you see a question that you think is important, click on the arrow button next to that question. It will increase the priority and improve the chances of the presenter answering that question.
