FPM

FPM is the official practice improvement journal of the American Academy of Family Physicians (AAFP), focused on what family physicians need today: practical, peer-reviewed advice on patient care and practice.

FPM articles and tools are developed by physicians for physicians and provide solutions to the challenges they encounter daily, helping them to deliver excellent patient care and service, enhance efficiency and revenue, and increase their professional satisfaction. FPM provides the authoritative guidance that physicians can rely on and use to enhance all aspects of their practice.

Through print and digital channels, FPM delivers concise, timely content in easy-to-consume formats. “Quick Tips & Insights,” a new weekly eNewsletter, highlights strategies for more successful and satisfying practice.

FPM is delivered bi-monthly in print and digital formats to AAFP members and subscribers and viewed online by more than 170,000 unique visitors monthly.

American Academy of Family Physicians
The AAFP represents 131,400 physicians and medical students nationwide. It is the only medical society devoted solely to primary care. Approximately one in five of all office visits are made to family physicians. That is nearly 193 million office visits each year—nearly 54 million more than the next largest medical specialty! Today, family physicians provide more care for America’s underserved and rural populations than any other medical specialty. Family medicine’s cornerstone is an ongoing, personal patient-physician relationship focused on integrated care.

### FULL-RUN RATE INFORMATION

**FULL-RUN, RUN-OF-BOOK RATES Effective Rate Date:** January 1, 2019.

- **Agency commission:** 15% of gross billing for space and color. Subject to withdrawal on accounts not paid within 30 days of invoice date. • **Short Rates and Rebates:** Advertisers who contract for a specific frequency or discount program, but do not meet those terms within the contract period will be short-rated except for those who qualify for the Guaranteed Frequency Plan. Advertisers who exceed their contracted frequency will be rebated. All paid ad pages count towards earned frequency rate.

- **Bleed:** No charge. • **First-time Advertisers:** First-time advertisers/agencies must complete a credit applications and prepay advertising to ensure placement. Call Advertising Services at 913-906-6000 ext. 5142 for more information.

**EARNED RATES Policy:** Rates subject to change with 90-days notice. Frequency discounts are based on the actual number of paid pages placed during one contract year. Full-page or fractional units are counted as one page. Split run pages run in AFP count toward the earned rate as one page. Contracts are accepted with the understanding that rates will be guaranteed beyond the last issue closed. Advertising is sold only at earned published rates. Contracts and insertion orders issued for units at less than published rates are not accepted. • **Combined Frequency Savings:** Insertions in FPM count toward earned frequency in American Family Physician (AFP). Each ROB advertising page counts as three (3) units in AFP. A 2-page spread counts as six (6) units in AFP. Each fractional unit, regardless of size, counts as three (3) units in AFP. • **COVERS, PREMIUM POSITIONS:** Covers and positions are sold annually on a contract basis to individual advertisers. Premiums are charged on one page of the ad unit when multiple page units are acceptable. Covers and positions near other positions are not bound by normal product conflict guidelines. Cancellations of less than 60 days written notice will incur a fee equal to the cost of the premium for one month.

Advertising Discount Programs

2/15 Plan:
Pay early and earn credit! Advertisers will receive a 2% credit on the invoice net to be used toward a future insertion, provided payment is received at the publisher’s office within 15 days of invoice date. The credit will only be applied to future insertion.

Continuity Rewards:
Buy five issues, get one free! Advertise the same product with five consecutive insertions and/or in consecutive issues and get the sixth insertion free. If consecutive insertions are of varied ad sizes, then award is given as an average of the consecutive ads, rounded up to the next full-page. The free ad supersedes any other discounts for that ad unit. Free ad units count toward earned frequency. Continuity schedules that go beyond the calendar year are not rate-protected. Adjustments will not be made to the reward invoice(s).

Corporate Rewards:
An individual advertiser (and its divisions or subsidiaries) whose 2018 accumulative ad units in FPM, AFP and associated publisher billings* equaling 72 units or more will earn a discount on gross billings in 2019 as follows:

<table>
<thead>
<tr>
<th>2018 AD UNITS</th>
<th>2019 DISCOUNT</th>
</tr>
</thead>
<tbody>
<tr>
<td>72 -105</td>
<td>1%</td>
</tr>
<tr>
<td>106-150</td>
<td>2%</td>
</tr>
<tr>
<td>151-255</td>
<td>3%</td>
</tr>
<tr>
<td>256-315</td>
<td>4%</td>
</tr>
<tr>
<td>316 or more</td>
<td>5%</td>
</tr>
</tbody>
</table>

Corporate Rewards are taken after all other discounts. An individual advertiser (and its divisions or subsidiaries) whose 2018 accumulative ad units in AFP, FPM, and associated publisher billings* equaling 316 or more units qualifies to receive, in lieu of all other discounts, a total discount of 10% on the gross billings of AFP and FPM in 2019. A 15% agency commission will be given on the adjusted gross billings. This discount supersedes all other discounts for the advertiser and is by option only. A qualifying advertiser not requesting this option prior to the first ad insertion in 2019 will receive all standard discounts for which the advertiser is qualified.

Guaranteed Frequency Plan:
Corporate Rewards advertisers qualify for a guaranteed frequency equal to one (1) frequency above the prior year’s actual earned frequency. If the guaranteed frequency is exceeded, the advertiser’s rate will be adjusted to that higher frequency, but no short-rate will occur in the event of a shortfall. Qualification for Corporate Rewards in subsequent years is based on actual earned frequency (units placed) for the prior year, not on the guaranteed frequency granted for the prior year.

Prescribing Information (PI) Important Safety Information (ISI) Discount
Advertisers earn a 50% discount with the 3rd PI/ISI page.

*Associated publisher billings include advertising in FPM, American Family Physician, online advertising on aafp.org and eTOC and eNewsletter advertising along with other sponsorship opportunities. eTOC/eNewsletter insertions count as one unit toward frequency. Each $10,000 spent online counts as one unit.

**Ad Placement Policy**
Advertising is rotated and interspersed throughout the issue—within departments and between articles. Advertising placement is split equally between the first- and second-half.

1. Run-of-book advertisements appearing in the journal’s print edition are automatically entitled to run in the digital/app edition of that same issue in the “Enhanced Print Replica” format. Alternatively, the advertiser may provide a different version of the ad to use in the digital/app edition up to the size of the original print ad.

2. Pre-printed inserts also qualify for inclusion in the digital/app versions, but separate ad materials must be provided. Contact FPM production for more details.

3. URLs that exist in the ad creative will be activated in the digital versions unless otherwise requested by the advertiser.

4. Additional charges apply for digital enhancements, such as video or audio. Contact your FPM sales representative for more details.

5. The publisher will make every attempt to keep the same running order, special positions, and competitive separation of advertisements in the digital versions as in the print edition, but cannot guarantee this. The publisher’s inability or failure to comply with the foregoing shall not relieve the agency or advertiser of its payment obligation.

Editorial

The mission of FPM is to give family physicians the tools and information they need to build rewarding practices and improve patient care.

General Editorial Direction

FPM publishes articles designed to help family physicians with every aspect of their practice from patient satisfaction to personal satisfaction and from payment to patient care. FPM brings the resources of the AAFP to bear on the challenges that family physicians face. Each issue contains a quiz that AAFP members and paid subscribers can take to earn continuing medical education (CME) credit.

Award-Winning Content

FPM was honored by the American Society of Healthcare Publication Editors in 2016, with a Bronze Award for Best Peer-Reviewed Journal. The article “Physician Burnout: Its Origin, Symptoms, and Five Main Causes” won a Gold Award from Association Media and Publishing.
Editorial Highlights

CME Credit
FPM offers at least five (5) CME credits free in each issue. The CME quiz that readers complete covers most of the content of the issue, therefore encouraging cover-to-cover reading.

The AAFP Connection
FPM is wired into all the resources AAFP offers and is accorded the respect commanded by the AAFP logo on the cover and by its status as the sister publication of American Family Physician.

Influential Authors
FPM’s reputation, the quality of its content, and the strength of its editors, Ranit Mishori MD, MHS, and Kenny Lin, MD, MPH, have attracted many of the best experts in primary care including recent articles by Farzad Mostashari, MD, and Dike Drummond, MD. FPM offers insight and direction on the topics that matter the most to decision makers, thought leaders, and “in the trenches” physicians.

Coding and Billing Expertise
FPM’s advice on diagnosis and procedure coding translates to dollars for readers. Every code they submit on insurance claims determines how much they get paid. The complexity of the coding systems and ever-changing billing rules makes FPM’s coding advice invaluable.

Patient Care Focus
Skyrocketing health care costs and declining physician reimbursement make efficient, effective health care delivery more challenging, and more important, than ever. FPM authors describe proven approaches to managing the care of patients with chronic diseases, communicating effectively with patients, providing team-based care, and achieving quality metrics.

How-To Focus
FPM is a practical journal that prioritizes publishing articles that not only build knowledge but that are also useful. The journal provides actionable guidance that can be used to spearhead improvement. Articles are written in an informal, conversational style that enhances readability and encourages engagement.

The FPM Toolbox
Tools, from encounter forms to quick-reference tables to patient handouts, accompany selected articles to help readers implement new knowledge and best practices.

Regular Departments
• Opinion: Viewpoints on issues of importance to the specialty
• Coding & Documentation: Questions and authoritative answers about issues that directly affect physicians’ pocketbooks—always rated among the most valuable content in the issue

The purpose of FPM is to serve the medical profession and provide continuing medical education (CME). The information and opinions presented in FPM reflect the views of the authors, not those of the journal or the American Academy of Family Physicians (AAFP), unless so stated. Advertising is generally accepted if judged to be in harmony with the purpose of the journal; however, FPM reserves the right to reject any advertising at its sole discretion.

A. Products and services to be advertised must meet the standards of generally accepted medical practice, be relevant to the clinical or socioeconomic practice of medicine, or be of special interest to the physician readership.

B. Products that require approval by the U.S. Food and Drug Administration for marketing must receive FDA approval before being eligible and must include “full disclosure” when required. It is the responsibility of the advertiser to conform to regulations of the FDA and all legal requirements for the content of claims made for products.

C. Technical data and scientific documentation may be required for products not regulated by the FDA or other government agencies.

D. Ads for nutritional supplements and vitamin preparations are not eligible unless the product is approved for marketing by the FDA or its efficacy and safety are substantiated by clinical studies acceptable to the AAFP—generally meaning studies that have independent support in authoritative, evidence-based medical literature. More specific guidelines are available at aafp.org/journals/adinfo.

E. General purpose foods such as bread, meats, fruits, and vegetables are eligible. Special purpose foods (e.g., foods for carbohydrate-restricted diets and other therapeutic diets) are eligible when their uses are supported by acceptable data. Only diet programs prescribed and controlled by physicians may be eligible.

F. CME courses, seminars, and conferences are eligible for advertisement. If CME accreditation is advertised, AAFP Prescribed credit must be approved and specified.

G. For enduring materials (e.g., books, audio- and videotapes, computer software, etc.), submission of a sample for review to establish eligibility may be required.

H. FPM follows the American Medical Association’s Code of Medical Ethics Opinion 8.063 regarding the sale of health-related products from physicians’ offices. Consequently, no ad will be accepted that promotes the sale of health-related products from a physician’s office unless documentation submitted to the advertising business manager with an ad clearly meets the guidelines set forth in Opinion 8.063.

I. FPM follows the American Medical Association’s Code of Medical Ethics Opinion 8.03 prohibiting physicians from placing their own financial interests above the welfare of their patients. Ads for products or services that assist the physician in running a more efficient practice, thus enabling the physician more time for patient care, will generally be accepted. Included here would be categories such as office equipment, medical billing systems, or other software products. Ads that focus solely on increasing profitability are not acceptable.

J. Institutional advertising germane to the practice of medicine may be considered eligible.

K. Other products and services not covered above will generally be accepted if they are determined to be in harmony with the stated purpose of the publication.

L. Ads containing comparative claims for competitive products must be substantiated by supporting data.

M. Ads for tobacco products and alcoholic beverages will not be accepted. The AAFP has no direct association with organizations involved in the manufacturing of tobacco products and urges its members to avoid such association.

N. All ads must clearly and prominently identify the advertiser by trademark or signature.

O. In consideration of publication of an ad, the advertiser and the agency, jointly and severally, agree to indemnify and hold harmless publisher, its officers, agents and employees against expenses (including legal fees) and losses resulting from the publication of the contents of the ad, including, without limitation, claims or suits for libel, violation of privacy, copyright infringement, or plagiarism.

P. Publisher shall not be liable for any failure to print, publish, or circulate any ad accepted by publisher, however, publisher shall use its reasonable efforts to place such ad in subsequent available space.

Q. Publisher is not responsible for incidental or consequential damage for errors in printing an ad.

R. Publisher will not be bound by any condition, printed or otherwise, appearing on order blanks or copy instructions when such conditions conflict with the conditions set forth in this rate card.

S. Because editorial requirements change as issue production progresses, all advertising insertion order position clauses are treated as requests.

T. In the event of nonpayment, advertiser and/or its advertising agency shall be jointly and severally liable for such monies as are due and payable to publisher.

U. Ads must conform to mechanical specifications as indicated in this rate card.
Online Advertising Policy

The American Academy of Family Physicians (AAFP) accepts advertising on the American Family Physician (AFP) and FPM websites. The appearance of advertising on these websites does not imply endorsement of the advertised company or product, nor is advertising allowed to affect editorial decisions or editorial content.

Advertising Acceptance
The AAFP has the right to refuse any advertisement that it seems inappropriate or incompatible with its mission and to stop accepting any advertisement previously accepted.

The following types of advertisements are prohibited on AFP and FPM websites:

- Alcohol and tobacco
- Weapons, firearms, ammunition, and fireworks
- Gambling and lottery
- Pornography and related materials and services
- Political and religious
- Advertisements that claim to offer a “miracle” cure or method
- Advertisements that make unsubstantiated health claims for the products advertised
- Advertisements directed at children

The following advertisement formats are prohibited:

- Pop-ups and floating ads
- Advertisements that are designed to collect personally identifiable information from visitors to the AFP or FPM website without their knowledge or permission
- Ads that expand across or down the page or send visitors to another site without the visitor having clicked on the ad

Advertisements new to the AFP or FPM websites require AAFP approval before they can appear on the sites. Such review will extend to any landing page(s) the advertisement links to. The company sponsoring the website of any landing page must be clearly identified on that page.

Advertisements, advertising icons, and advertiser logos must be clearly distinguishable from editorial content. In addition, AFP or FPM web pages are designed to label all advertisements with the word “advertisement.”

Advertisers may be required to submit supporting documentation to substantiate claims.

The AAFP does not allow targeted placement of advertising adjacent to editorial content of similar nature. Advertisements are placed at random and do not appear adjacent to relevant editorial except by chance.

Advertisements may not imply endorsement by the AAFP or its journals.

Neither advertisers nor their agents may collect any personal information from any user viewing the AFP or FPM website except with the user’s knowledge and permission and only after giving the user substantive information about the uses to which the information will be put. Similarly, cookies, applets, and other such files are prohibited if those files transmit any personally identifiable information to the advertisers or agencies without the user’s knowledge and permission.

The full rules for any market research or promotion associated with an advertisement must be displayed in the ad or available via a prominent link.

Advertising revenue is used to support the AAFP.
