

choose Purpose

When you choose family medicine, you choose **purpose**.
Family physicians are called to serve, and to transform patients' health and quality of life for the promise of a better tomorrow.
Family medicine means **purpose**. Family medicine means more.

Choose more. Choose family medicine.

AMERICAN ACADEMY OF
FAMILY PHYSICIANS

The AAFP offers many resources and benefits for medical students.

- **Strolling Through the Match** – Get the information you need to make decisions about your career and learn more about residency and fellowship training through this guidebook.
- **Residency Directory** – Search the only comprehensive residency directory that lets you search family medicine residency programs by location, community setting, program type, program size, and more.
- **Family Medicine On Air** – Learn about hot topics in health care from family medicine leaders through these live social media events. The February broadcast will feature AAFP President Robert Wergin, MD, on the topic of cost of care.
- **Free Quiz Questions** – Study like a family physician. Use the free AAFP Board Review questions for practice on a wide range of clinical topics family physicians deal with regularly.
