A. Yes, you can print your responses from the Review Information page.

Q. What do I do if I receive a review alert on the summary page?

A. The summary page of the census may alert you to review the information you entered for accuracy. Specifically, an alert will appear if the number of resident names entered does not match the number of positions offered. This alert is intended as a reminder to ensure that you do not miss a resident. The positions offered number should match the number of positions you offered in the match and the number of residents enrolled in each year should match the exact compliment of residents enrolled in each year effective July 1, 2018. It is understood that there are circumstances when those numbers will not be the same. If you receive the alert, you should simply review the information for accuracy and then submit.
