

We see that your teenager is turning 16 in the coming months.

This is a great time to schedule a check-up and ensure that your teen has received the recommended immunizations.

# Highlight

on **VACCINATION 4 TEENS**

The Centers for Disease Control and Prevention (CDC) considers vaccination to be the best way to help protect teens against serious diseases.

Please contact our office to schedule your teen's appointment. We can discuss the vaccinations that may be needed at this visit based on your teen's medical records and answer your questions. In the meantime, for more information you can visit [www.cdc.gov/vaccines/who/teens](http://www.cdc.gov/vaccines/who/teens).

Thank you and we look forward to hearing from you.

This program provided through the AAFP Foundation with support from Sanofi Pasteur.
