About the FMPC and its Grant Awards

The Family Medicine Philanthropic Consortium (FMPC) was established in 2006 as a collaborative program of the American Academy of Family Physicians Foundation and the Constituent Chapters and Chapter Foundations of the American Academy of Family Physicians (AAFP). There is no cost for membership in the FMPC. Funding for FMPC Grant Awards comes from the national Dues Check-Off Campaign.

The FMPC is organized to improve the health of all people and accomplishes its mission by:

- Collaborating in the use of national Dues Check-Off revenues provided by the AAFP Foundation
- Sharing expertise, replicating programs, and sharing best practices
- Providing FMPC Grant Awards

The mission of the FMPC Grant Awards program is to support Constituent Chapters and Chapter Foundation programs and assist them in fulfilling their mission of improving the health of all people.

Annual FMPC Grant Awards are determined through a competitive grant funding process, with funding available only to AAFP Constituent Chapters and Chapter Foundations. Since establishing the Awards in 2006, grants totaling \$1,166,670 have been awarded to fund 320 projects in 41 states (see pages 10-13).

For more information please visit the AAFP Foundation website at www.aafpfoundation.org/fmpc

MEMBER OUTREACH PROJECTS

ADVOCACY

ADVOCACY DAY AT THE STATE HOUSE – MASSACHUSETTS (2017, 2018)

Massachusetts AFP (MassAFP) hosts a one-day event that includes morning leadership training sessions to provide tools, education, resources, and direction to allow members to influence political representatives to vote with the best interests of Family Medicine in mind. Following afternoon in-person meetings at the State House, participants reconvene, and outline next steps for the Chapter and members. All student, resident, and active members of MassAFP are encouraged to attend Family Medicine Advocacy Day.

ADVOCACY BOOTCAMP – MARYLAND (2018)

Advocacy Bootcamp is a high-energy program that provides members with advocacy tools, education, resources, and direction. This one-day program includes leadership training, role-playing with peers, clarification on legislative issues, and an opportunity to ask about best speaking approaches. Bootcamp culminates in MDAFP's Family Medicine Advocacy Day, with expected outcomes of more MDAFP members actively participating in advocacy for Family Medicine; and an increased awareness of state legislators regarding Family Medicine issues.

ADVOCACY LEADERSHIP AND DEVELOPMENT – MICHIGAN (2018)

The Advocacy & Leadership Development Program recruits and trains new members in the fields of grassroots advocacy, media, legislative affairs, executive departments, stakeholder workgroups and political campaigns. Participants undergo a one-day immersion program and complete an action plan, which identifies one key priority issue and an accompanying strategy to work on that priority.

ADVOCACY LEADERSHIP TRAINING – WISCONSIN (2018)

Advocacy Leadership Training is a multi-faceted program that begins with leadership articles and culminates at Doctor Day. Expected outcomes are the active involvement of more members in advocacy for Family Medicine, and an increased awareness of state legislators regarding Family Medicine issues.

COMMUNITY RESOURCES

CONNECTING PATIENTS TO COMMUNITY RESOURCES – MINNESOTA (2018)

Minnesota Family Physicians (MAFP) will be connected with resources that help them refer patients with chronic disease to behavior change and self-care management education programs in their communities. MAFP will provide outreach booths, at their annual conference, for seven patient advocacy groups that address chronic conditions (hypertension, diabetes, obesity, tobacco use, cancer, dementia, and arthritis), and develop an educational piece for Family Physicians which provides community resources, services and tools available from these patient advocacy groups.

DEPRESSION

MAJOR DEPRESSIVE DISORDER: CHANGE PACKAGE – NEW JERSEY (2017)

A Major Depressive Disorder (MDD) change package, which is a set of small, actionable changes that practices can use to improve care delivery for patients with MDD, will be developed by NJAFP. Online tools will track family physicians who download the change package to allow the Chapter to follow-up on its use and impact.

DIABETES

NATIONAL DIABETES PREVENTION: BALANCING INCENTIVES PROGRAM – NEW YORK (2017)

The Balancing Incentives Program (BIP) model for diabetes self-management training brings peer-based diabetes self-management to vulnerable populations. Following a successful pilot project in the South Bronx, the coalition of

NYSAFP, NYSAFP Bronx-Westchester chapter, and the Quality and Technical Assistance Center of the Research Foundation of the State University at Albany will be expanding the BIP model to upstate NY.

LEADERSHIP

GROWING FAMILY PHYSICIAN LEADERSHIP – MASSACHUSETTS (2018)

This opportunity is open to all members, residents and students who are encouraged to partake in all parts of the program: 1) a leadership development series in the MassAFP newsletter, 2) a leadership development toolkit on the MassAFP website, and 3) a leadership development educational track at the annual Spring Refresher CME meeting.

LEGAL SUPPORT

OPENING A PRACTICE: SUPPORTING THE INDEPENDENT FAMILY PHYSICIAN – GEORGIA (2018)

Georgia AFP will give new-to-practice physicians and family medicine residents who plan to open their own independent practice in Georgia the opportunity to learn about starting a small practice; give them financial support to achieve this goal; and connect them with legal resources to become a small business owner.

MEMBER RETENTION

VALUE-DRIVEN ENGAGEMENT FOR NEW-TO-PRACTICE MEMBERS – MINNESOTA (2018)

When MNAFP realized they didn't have offerings for New-to-Practice (NTP) members they sent out a survey to identify needs. Guided by the survey, MNAFP is engaging NTP members via: three emails; a Virtual Summit; and two education/networking events. Each of these initiatives focuses on NTP-identified priority topics and content.

PHYSICIAN WELLNESS

EMBRACING WELLNESS – PHYSICIAN HEALTH IS PRIMARY – NEBRASKA (2017)

The Nebraska AFP Physician Health & Wellness campaign series supports a nationally-renowned wellness speaker at the NAFP Annual Spring and Fall meetings and provides members with quarterly wellness messaging.

PHYSICIAN WELLNESS CONFERENCE: HOW TO HEAL THE HEALER – OKLAHOMA (2018)

This one-day wellness conference will be held in conjunction with the Oklahoma AFP's annual meeting. The conference provides skills to manage change in health care workers' personal and professional lives and creates an opportunity to exchange ideas and develop positive methods of re-engineering health care work settings to promote professional satisfaction, well-being, personal growth, and sense of purpose.

WELLNESS WEDNESDAYS – OHIO (2018)

OAFP's structured, bi-monthly webinar series focuses on the joy of medicine. The free series, presented on a Wednesday over the typical lunch hour, is facilitated by a licensed Professional Clinical Counselor. Discussion topics for 2018 include meditation, mindfulness, nutrition, and the power of vulnerability to combating isolation. In 2019 topics include amplifying joy when social determinants are harnessed, building meaningful community connections, and team-based strategies for a healthy work environment.

PREVENTIVE SERVICES

OPTIMIZING PATIENT CARE BY CHOOSING WISELY® INITIATIVE – ILLINOIS (2017)

The Illinois AFP developed a series of physician education and training activities on the Choosing Wisely® concepts endorsed by the AAFP. Primary care and subspecialty medical associations were convened to outline how clinical policy and best practices could better align with Choosing Wisely Recommendations. Using this information, IAAP will distribute a CME newsletter and update/manage their Choosing Wisely® webpage that includes resources, physician tools, and links to online education/training CME.

QUALITY IMPROVEMENT

QUALITY IMPROVEMENT SUMMIT – OHIO (2017)

Seventy primary care teams were given the chance to customize a practice-based, QI process by self-selecting a pathway from one of four topic tracks that included cervical and breast cancer, hypertension, and diabetes. Working closely with OAFP, the Ohio Department of Health, the American Cancer Society, and the Ohio Association of Community Health Centers, participating practices will: measurably improve patient care; earn AAFP Performance Improvement in Practice credit; and satisfy a performance requirement for ongoing certification from the American Board of Family Medicine for their participation.

ULTRASOUND

POINT OF CARE ULTRASOUND WORKSHOP – SOUTH DAKOTA (2018)

Point-of-care ultrasonography improves health care through enhanced procedural efficacy, decreased complications, and reduced pain and suffering. Available at the SDAFP annual meeting, this CME provides hands-on training with a skilled clinician.

PUBLIC HEALTH PROJECTS

HEALTHY LIVING

HEALTH AND WELLNESS EDUCATIONAL SERIES – LOUISIANA (2017, 2018)

The LAFP Foundation, Baton Rouge General Family Medicine Residency Program (BRGMC-FMRP), *I CARE* Program staff, and the Capitol Middle School formed a partnership to provide prevention education to students in the areas of alcohol, tobacco, other drugs, violence, crisis response, and management. BRGMC-FMRP residents and faculty serve as a resource to improve students' knowledge of a healthy lifestyle by offering presentations to 7th graders enrolled at Capitol Middle School. Video snippets of these presentations allow faculty within the school system to promote healthy lifestyles to their students, too.

HELPING HANDS ACROSS GEORGIA – GEORGIA (2017, 2018)

FMPC funding supports Family Medicine resident and/or medical student projects. Since 2012, Georgia Healthy Family Alliance has been awarding seed grants to GAFP members through the "Helping Hands across Georgia Project." Partnering with indigent care clinics where GAFP members, residents, and medical students are volunteering makes it possible to offer resources and program materials to educate patients on prevalent prevention and health issues. In 2019, one or more resident seed grants will be awarded to develop projects that address: care closets/weekend cooler bags for students who lack basic needs; chronic disease management; obesity prevention; and women's health services.

STOP & THINK: PREVENTING MARIJUANA USE IN COLORADO YOUTH – COLORADO (2017, 2018)

Stop & Think educates youth about potential dangers of marijuana use and teaches responsible behavior around marijuana products. This curriculum for 4th- and 5th-grade classrooms was developed in 2017-2018 under the guidance of CAFP with input from its members and public health leaders. An event at the Colorado AFP Annual Summit educates members about the curriculum and its messages; engages physicians to visit their local schools to present; and helps physicians learn more about talking to parents and youth regarding marijuana.

SUGAR WARS – CAMPAIGN FOR ADDRESSING OBESITY – ILLINOIS (2018)

Sugar Wars patient awareness campaign focuses on eating choices and lifestyle habits and includes positive messaging to patients. Materials produced will include a video/slide deck for use in physician offices; PDF infographic; a public service announcement to levy a social media campaign; and online enduring CME offered through a webinar.

MEDICAL HOME

ON CALL WITH A PRAIRIE DOC – SOUTH DAKOTA (2017, 2018)

The one-hour live television program on South Dakota Public Broadcasting (SDPB) discusses relevant medical issues and answer questions from callers. The SDAFP and SDAPF Foundation underwrite four, one-hour “On Call with the Prairie Doc” episodes to ensure family medicine topics reach South Dakota families. In addition, SDAFP offers short clips to members on the SDAFP web page and Facebook.

REDUCTION OF FINANCIAL BURDEN OF SCHOOL LUNCH PROGRAM – UTAH (2017)

The Utah AFP supported the non-profit organization *Utahns Against Hunger* by providing funding for a paid intern to collect and analyze bad debt and best practices from school lunch program data submitted by 41 school districts across Utah. *Utahns Against Hunger* is a non-profit organization helps shape public policy related to food and nutrition programs.

USE YOUR HEAD! HELMETS FROM STUDENTS 2 KIDS – KANSAS (2017)

As part of the six-week rural externship through the KAFP Rural Family Medicine & Research Program, 40 rising M2 medical students will expand their externship activities by providing a community education presentation about bike safety and helmets and distributing a bike helmet to all children who participate.

PAYMENT REFORM

PRIMARY CARE INVESTMENT INITIATIVE – COLORADO (2018)

A report commissioned by the Colorado AFP in Summer 2018 analyzed current spending on primary care by Colorado health insurers through fee-for-service (FFS) payments. Primary Care Investment Initiative (PCII) is an expanded analysis of primary care spending that includes non-FFS payments by public and commercial health plans, such as per member per month and quality-based payments. The report will be useful to the collaborative of providers, payers and consumers regarding how primary care investments are allocated and gaps in current payment reforms that must be filled to improve these investments.

STUDENT &/OR RESIDENT PROJECTS

BUILDING THE FAMILY MEDICINE PIPELINE

FACES IN FAMILY MEDICINE – KANSAS (2017)

Working with local FMIG’s and Regents University pre-med clubs, eligible applicants are identified: students in their first and second years of medical school (primary audience), and pre-med students in their junior and senior years of undergraduate studies (secondary audience). Participants are highlighted throughout the year to share success stories of “Faces in Family Medicine.” This program began in 2010.

KEEPING PRIMARY CARE IN NJ CAMPAIGN – NEW JERSEY (2018)

The Keeping Primary Care in NJ website features interviews with primary care residents about their debt burden, interest rates and decision-making process for staying or leaving NJ. The goal is to:1) highlight issues related to medical school debt for family physicians; 2) explore the impact on debt burden as it relates to remaining in or coming to NJ to practice; and 3) advise state officials to leverage policy changes to protect their investment in medical education and training funding.

FAMILY MEDICINE MENTOR CONNECTION – ILLINOIS (2017, 2018)

Family Medicine Mentor Connection unites medical students with dedicated Family Medicine mentors. Mentors post contact info about their practice/career path in the community forum; students accepted into IAFP’s program self-select their mentor through a closed, members-only password-protected section of the IAFP web site. Connected pairs are encouraged to connect in person, by phone, Skype/Facetime and by email.

MEDICAL STUDENTS SERVICE LEARNING & LEGISLATIVE PROJECTS – SOUTH DAKOTA (2017)

This 2-day program began in 2013. On Day One first-year medical students provide a health fair for approximately 250 students at the Pierre Indian Learning Center and tour the Women’s Prison in Pierre. On Day Two, students gather at the State Capitol with physicians and state officials for activities that inform students about leadership in state government and provide first-hand experience in advocating for health care issues important to Family Medicine.

ON THE ROAD – CALIFORNIA (2017, 2018)

The California AFP is ‘on the road’ attending four FMIG events; Match Day activities at two campuses; visits to two local chapters; and stopovers at six residency programs (one in each region). On the Road provides a means of contextualizing the chapter’s work, bridging a divide between the CAFP office and the realities of family medicine practice, and building relationships with students, residents, faculty, and other members.

PRACTICE MODEL ROADSHOW – HELPING RESIDENTS DETERMINE THEIR FUTURE – CONNECTICUT (2018)

The Practice Model Roadshow helps residents identify practice models that interest them and suit their needs. Physician representatives from each of the major practice areas (solo, small-large group, employed, direct primary care, academic, and hospital-based) visit all Family Medicine residency programs in Connecticut for a formal, required educational session.

STUDENT ACADEMY AMBASSADOR PROGRAM – MISSISSIPPI (2017)

Academy Ambassadors are medical students who assist the Mississippi AFP at their Annual Meeting and serve as MAFP champions for Family Medicine on their campus.

TRANSITION TO PRACTICE – MISSOURI (2018)

This two-day interactive conference provides practical tools to assist third- and fourth-year medical students, and Family Medicine residents step into the next phase of their career. Activities include career recruiters, residency programs recruiters, and a “how to” session for applying and interviewing for their next step. Transition Conference attendees continue their learning at the MAFP Annual Fall Conference and meet for a follow-up assessment and to plan for the next year’s conference.

EXTERNSHIPS, FELLOWSHIPS, INTERNSHIPS, PRECEPTORSHIPS

LEARNING TO CARE, ADVOCATE, & LEAD SUMMER EXTERN PROGRAM - WISCONSIN (2017)

This externship program allows students between their first and second year of medical school to spend eight weeks rotating between a clinical setting with a family physician preceptor and the WAFP/WAFP Foundation (WAFP-F) office. Focus areas in the office include leadership development, workforce development, advocacy education and philanthropic activities. The experience concludes with attendance at the AAFP National Conference where students serve as Delegate or Alternate Delegate to the Wisconsin state chapter and help lead other reception activities.

LEROY A. RODGERS, MD, PRECEPTORSHIP PROGRAM – OHIO (2017, 2018)

Each year the Leroy A. Rodgers, MD, Preceptorship Program funds stipends for 70 first- and second-year medical students' preceptorship rotations. Participants receive stipends of \$300/week for a four- to six-week educational rotation with a volunteer, community-based, family physician preceptor. Preceptor support will be expanded by creating an online toolkit of resources that will be shared with current preceptors and other AAFP chapters to support this effort nationwide.

LEADERSHIP

CHIEF RESIDENT WORKSHOP – OHIO (2018)

Ohio AFP’s Chief Resident Workshop equips new chiefs with leadership tools needed to ensure a successful academic year. Discussion topics include a wellness component, techniques to resolve conflict, role-play scenarios, and innovative methods to motivate others to succeed.

MEETING, NATIONAL

NATIONAL CONFERENCE: SUPPORTING STUDENTS TO ATTEND– *WISCONSIN (2017, 2018)*

In collaboration with Wisconsin medical schools, the Wisconsin AFP coordinates recruitment and selection of 50 medical students who annually attend AAFP's National Conference (NC) and participate in corresponding activities sponsored by Wisconsin AFP. Students are tracked to determine whether those who participate in NC select Family Medicine and remain in Wisconsin for residency and practice.

MEETING, REGIONAL

FAMILY MEDICINE MIDWEST CONFERENCE – *FAMILY MEDICINE MIDWEST COLLABORATIVE (2017)*

The Family Medicine Midwest (FMM) Conference is a three-day conference hosted by the 12-state FMM Collaborative that includes Illinois (organizing Chapter), Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North Dakota, South Dakota, and Wisconsin. Between 2012-2016, there was a 64% (n=78) Match Rate into Family Medicine for graduates who attended an FFM Conference.

FAMILY MEDICINE RESIDENTS JEOPARDY CHALLENGE – *FMM COLLABORATIVE (2017)*

The Jeopardy Challenge follows the Residency Fair at the Family Medicine Midwest Conference. It aims to attract, educate, and mentor future family physicians while keeping the process fun. A trophy (and bragging rights) are awarded to the winners.

MEETING, STATE

FAMILY MEDICINE STUDENTS & RESIDENTS STATE CONFERENCE – *LOUISIANA (2017)*

Since 2009, the Louisiana Academy has hosted a one-day annual conference to bring resident and student members together. It offers a consolidated agenda of educational sessions, workshops, and a recruitment fair with the state's ten Family Medicine residency programs, hospitals and clinics to provide networking opportunities.

FUTURE IN FAMILY MEDICINE SPRING FLING – *MISSISSIPPI (2017, 2018)*

Through MAFP's annual Spring Fling students and residents gain exposure to speakers, topics and procedural skills, and network opportunities. Separate agendas for residents and students offer tailored topics that focus on areas of interest for each group, and the day ends with a dinner allowing for networking with MAFP physician members.

FUTURE OF FAMILY MEDICINE CONFERENCE – *MICHIGAN (2018)*

Michigan AFP's one-day conference targets medical students preparing to choose their specialty paths. Conference components are: 1) a rotating host site that allows students to visit multiple campuses (a different medical school serves as the champion for the conference each year and provides meeting space and on-site support); 2) residency program exhibitors with dedicated time to answer questions; 3) a keynote speaker who provides big picture view of Family Medicine; 4) two panels giving insight into what it takes to get accepted into a FMRP and a view into the daily lives of family physicians; and 5) hands-on clinical procedures led by residents.

KICKOFF AND SOCIAL FOR NEW CLASS OF RESIDENTS – *MINNESOTA (2017)*

The Kickoff and Social for the New Class of Residents began in 2017 to recruit new resident members, establish mentor relationships between residents and active members, and cultivate social connections among new residents from different residency programs. This program features two events and a career mentorship for new residents.

RESIDENT PRESENTATION TRACK – *KANSAS (2018)*

As a part of its Annual Meeting, KAFP reserves twelve, 15-minute CME time slots for resident presentations, which gives an opportunity for Kansas Family Medicine residents to gain speaking experience while fulfilling their scholarly activity requirement. Selected residents receive a \$100 stipend plus costs for registration and hotel/travel.

STUDENT MEETING & WORKSHOP: LIVING THE FAMILY MEDICINE DREAM – GEORGIA (2017)

GAFP's student meeting, revamped in 2017, is an interactive, one-day workshop featuring lectures, hands-on clinical procedure sessions, conversations on "Day in the Life" of a resident, and a Residency Program Fair. The workshop culminates in a dinner with GAFP leaders talking about their magic moments in family medicine. GAFP works with the Family Medicine Education Consortium to recruit residents to teach procedures and discuss life as a resident.

STUDENT & RESIDENT EDUCATION AT STATE ANNUAL MEETING – MARYLAND (2018); MASSACHUSETTS (2017, 2018)

MassAFP has hosted a student and resident track at their Annual Meeting & Spring Refresher since 2015. This year Maryland will offer a similar opportunity to students and residents at the MDAFP Annual Meeting and Summer Summit. In 2019, the track for both Chapters will focus on public health, integrative medicine, social determinants of health, and leadership development. A reception featuring student, resident, and faculty poster presentations is part of the event.

STUDENT TRACK AT STATE ANNUAL MEETING: LATEX TO LARYNGOSCOPY – KANSAS (2017, 2018)

KAFP's Annual Meeting includes a student track called Latex to Laryngoscopy (L2L). Since 2010, L2L has continued to expand, and now provides five hands-on workshops/skills training sessions: sterile technique, suturing; reading EKGs; vaginal delivery using OB model and laryngoscope insertion; plus three sessions addressing leadership, advocacy, and why physicians choose Family Medicine. L2L serves as the kick-off for the Rural Family Medicine & Research Program, which is KAFP's successful elective summer program for 30 rising M-1 students who spend six weeks in a rural setting shadowing a primary care physician.

WEBINAR TRAINING

STUDENT AND RESIDENT WEBINAR SERIES – CALIFORNIA (2017)

CAFP will develop webinar trainings on four topics identified as "high-need areas" at the 2017 Society of Teachers of Family Medicine meeting. Topics are: how to have end-of-life discussions with patients; how to critically review literature (basic epidemiology and biostatistics skills); advocacy basics; and how to choose a practice (large group vs. small) and approach the interview process. Videos of webinars will be posted to the CAFP YouTube channel/website.
