

# DOCUMENTING HISTORY AT A GLANCE

## Established Patient Office Visit

Code	History	Examination	Medical Decision-Making	Time
99211	—	—	—	5 min.
99212	Problem focused	Problem focused	Straightforward	10 min.
99213	Expanded problem focused	Expanded problem focused	Low complexity	15 min.
99214	Detailed	Detailed	Moderate complexity	25 min.
99215	Comprehensive	Comprehensive	High complexity	40 min.
<b>2 of 3 required</b>				

Type of History	History of the Present Illness (HPI) (see page 2)	Review of Systems (ROS) (see page 2)	Past, Family and/or Social History (PFSH) (see page 2)
<b>Problem focused</b>	<b>Brief</b> One to three elements	Not required	Not required
<b>Expanded problem focused</b>	<b>Brief</b> One to three elements	<b>Problem pertinent</b> Positive and pertinent negative responses for the system directly related to the problem(s) identified in the HPI.	Not required
<b>Detailed</b>	<b>Extended</b> Four or more elements (OR status of three or more chronic or inactive conditions)	<b>Extended</b> Positive and pertinent negative responses for 2 to 9 systems.	<b>Pertinent</b> At least one specific item from the PFSH must be documented.
<b>Comprehensive</b>	<b>Extended</b> Four or more elements (OR status of three or more chronic or inactive conditions)	<b>Complete</b> Positive and pertinent negative responses for at least 10 systems, including the one directly related to the problem identified in the HPI. Systems with positive or pertinent negative responses must be documented individually. For the remaining systems, a notation indicating that all other systems are negative is permissible.	<b>Complete</b> At least one item from each of two areas must be documented for most services to established patients. (At least one item from each of the three areas must be documented for most services to new patients.)
<b>3 of 3 required</b>

**The History of the Present Illness** is a chronological description of the development of the patient's present illness from the first sign or symptom or from the previous encounter to the present. It may include the following elements:

- Location,
- Quality,
- Severity,
- Duration,
- Timing,
- Context,
- Modifying factors,
- Associated signs and symptoms,
- The status of chronic or inactive conditions.

#### **Review of Systems**

- Constitutional symptoms (e.g., fever, weight loss),
- Eyes,
- Ears, nose, mouth, throat,
- Cardiovascular,
- Respiratory,
- Gastrointestinal,
- Genitourinary,
- Musculoskeletal,
- Integumentary (skin and/or breast),
- Neurologic,
- Psychiatric,
- Endocrine,
- Hematologic/lymphatic,
- Allergic/immunologic.

The guidelines recognize three areas of **Past, Family and/or Social History**:

#### **Past History**

A review of current medications, prior illnesses and injuries, operations and hospitalizations, allergies and age-appropriate immunization status.

#### **Family History**

A review of significant medical information about the patient's family, including information about the health status or cause of death of parents, siblings and children; specific diseases related to problems identified in the CC, HPI or ROS.

#### **Social History**

An age-appropriate review of significant activities that may include information such as marital status, living arrangements, occupational history, use of drugs, alcohol or tobacco, extent of education and sexual history.
